

BLOCKADE OF RUHR IS COMPLETE!

French Are Not Permitting Coal To Enter Germany

Any Train Attempting to Go Beyond Blockade Line Will Be Fired on--Will Not Damage Tracks.

(By The Associated Press)
DUSSELDORF, Feb. 2.—The blockade of the Ruhr from within was complete today. Not a single ton of coal or coke has entered Germany from the Ruhr in the last 24 hours, the French announced today. The measure of midnight Wednesday is effective. The Germans show no disposition to contradict the French as to the effectiveness of the blockade but they relate that one train of 45 coal cars ran the blockade at Harde, near Dortmund yesterday evening and escaped into interior Germany. The French had 15's commanding every line into Germany and the directors of the railway have been informed that if any engine is moved beyond the line it will be fired on. Enquiries of the French as to why they have not resorted to tearing up the track along the frontier elicited the reply that they did not wish to interfere with traffic for the present further than exports of coal and desired to give rail men a chance to resume work. As a matter of fact the rail workers were showing an inclination to resume their duties today in the occupied area. The French are occupying militarily only the line around the region and the interior roads now are being partly operated by Germans. The strike at Cologne seems to be petering out. The Dusseldorf station was open today for the first time since January 25, but only a small percentage of the trains were running. General Fayot, the French quartermaster general, said the army service supply were operating efficiently. Tobacco, coal and manufacturers in the valley have been instructed by the French that they must pay the tax of tobacco

GERMAN LABOR MAKES APPEAL

Probe Ordered Of State Finances In North Carolina

(By The Associated Press)
RALEIGH, N. C., Feb. 2.—The North Carolina General Assembly today passed and ratified a resolution introduced in the Senate by Senator Harris, of Wake, which calls for investigation of the state finances by the joint committees of House and Senate on finance and appropriation. The resolution empowers the committees to call witnesses, examine books, administer oaths and report back to the General Assembly.

GOVERNOR MORRISON DEMANDS ENQUIRY

(By The Associated Press)
RALEIGH, N. C., Feb. 2.—Vigorously denouncing Corporation Commissioner A. J. Maxwell for publication of a treatise on the financial condition of the state which he said was "false" and asserting that its publication was motivated by a vindictive attitude towards the administration and its "constructive program," Governor Cameron Morrison in a half hour address to the joint session of the General Assembly called at noon, demanded a complete investigation of the actual condition of the state finances. "A situation has arisen concerning the fiscal affairs of the state which in my opinion makes it my duty to come before you and supplement the remarks and information I am about to address to you," the governor began, and after discussing figures in the Maxwell article to which he had referred and dealing with the source of his authority for the statement he made in his biennial address in regard to the condition of finance, he closed by declaring that the Maxwell allegations are "not the truth."

MYSTERY SHOT KILLS GIRL

A pistol shot, fired by some mysterious hand, killed Sophie Szymanski, 18, shown here, as she returned late at night to the residence of the Rev. John Deminski, pastor of St. Casimir's church, Erie, Pa., where she was employed as assistant housekeeper. The Rev. Deminski, held by police as an investigation is conducted, disclaims any guilty knowledge.

Unionists Ask America to Save Europe

City Attorney Completes Task With Ordinances

City Attorney A. M. Alken has completed the task of remodeling the city ordinance work on which was begun in his office about three months ago under a resolution adopted by the council. In the hands of the city auditor today is a typescript of 450 pages, ready for the printer, which may be said to represent the laws of the city of Danville as they actually exist today. The council will be called upon to approve the recodified ordinances and they will be then printed and bound in usual legal form thereby filling a long felt need among city officials and local attorneys who have on several occasions had difficulty in learning just what the laws were. City Attorney Alken went back to the original records of the council in compiling the volume and this has been no light task. Scores of ordinances from year to year had been repealed or amended and at the same time the volume of ordinances became more or less chaotic requiring patience and courage in seeking out the law. Ordinances rendered obsolete by the enactment of new ones had been eliminated and the ordinance book is now so simplified that it will be easy by referring to an elaborate and well arranged index to find out just what the law is.

BRITISH BANKS OVERFLOWING WITH SILVER

(By The Associated Press)
LONDON, Feb. 2.—London banks are overflowing with silver, so much so that they are embarrassed for facilities to handle the huge amounts which have been deposited with them. It is estimated that there is twice as much silver in circulation in England as there was a year ago. The volume of the 60,000,000 pounds worth of coined silver could be dispensed with. It was needed during the war, but today the banks are at their wits' end to get rid of it. The vaults of many banks are filled, and it has been whispered that the dungeons of the Tower of London have been requisitioned to store the surplus metal.

Jail Delivery Is Frustrated

C. H. Hamilton Found in Possession of Saw Made Out of Steel From Shoe Sole.

An attempted jail delivery was frustrated yesterday afternoon when Assistant Jailor Harper Chandler discovered and took charge of a small file and a piece of steel about four inches long in the cell of Carl Heilmann, alias C. H. Hamilton, held in a charge of robbery, having been caught several weeks ago in the act of robbing the West End Milling station. The discovery was the result of a statement by Carl Green, the man who had complaints with which he intended to escape, but it is regarded as problematical whether the ruse bars over the jail windows could have been penetrated by the file. Heilmann, at the time of his arrest, intended escaping jail should he be caught was indicated by the fact that Detective J. N. Campbell found a note in his possession addressed to a man named "John," and he told Officer Bates of the inmates immediately on returning to Danville. Officer Bates informed Jailor Chandler of Heilmann's cell then revealed a finger nail file and a small steel bar taken from the sole of a shoe. He had used the file to cut into the steel blade and already begun to make an implement of back-saw effect. Jailor Nelson Dixon was also soon in the cell with Chandler and the two questioned the man as to their discovery. Heilmann denied he had anything to do with the steel blade, laying the blame on Green. Heilmann's record revealed from other cities indicates he is a notorious robber. When he planned the robbery he evidently took into consideration that he might be caught, for the note found in his possession the day after his arrest, had left full instructions to his wife to bring him the saw blades. It was assumed that when she heard of his arrest she would come to see her husband and he would then hand her the note at a convenient opportunity.

SHOE STOCK IS SOLD

The stock of the Enick Shoe Company which is in course of liquidation was purchased this morning from D. H. Penn, trustee by Harnsberger's Department Store at a ratio of twenty cents on the dollar. The business of the Enick Shoe Company, 212 Craighead street was sold at auction by Mr. Penn for the benefit of creditors.

DANCE AT GOLF CLUB

The regular weekly dance at the Golf Club will be held tomorrow (Saturday) night from nine to eleven o'clock.

Coroner's Inquest In Oden's Death; Wife Is Blamed

A coroner's inquest into the death of Floyd Oden, colored, held this morning at 11 o'clock resulted in a verdict by the jury that Oden came to his death as result of a gunshot wound at the hands of his wife, Julia Oden. Oden died at Providence hospital Wednesday afternoon from a wound in the back, alleged to have been inflicted by his wife early Sunday morning following an argument, which had begun the night before. Police Sergeant Martin was the first witness and testified to receiving a call on Sunday morning informing him that there had been a shooting at Lucknow. He went there and found that Floyd Oden had been shot and that he had been removed to Providence hospital. Enquiry among colored neighbors failed to reveal any definite information as to the shooting. Martin then went to the hospital and saw the negro who told him that they had been "fussing" on Saturday night and that the quarrel had been renewed on Sunday morning. The officer then related the statement of Oden, which he gave at the hospital following the shooting. This, in effect, was that after the quarrel was resumed, the negro pressed against his wife and tried to force her to have sexual intercourse with him. "Don't play with me with that gun, it's loaded," he stated. Finally the two left the house and it was while he was standing on the porch in the presence of his wife that the shot was fired. The above version as given by Sergeant Martin was the statement made to him by the accused man in the presence of his wife. The officer said that he then asked Oden if he had struck his wife and he replied "No." The woman was then asked if her husband had struck or attempted to strike her during the argument, and her reply was "No" also.

Salesman With \$100,000 In Gems Missing a Month

NEW YORK, Feb. 1.—The police are looking for George R. Bruns, a salesman for Segman & Abraham, manufacturing jewellers, of No. 102 Fulton street, who disappeared December 28 with jewelry worth probably \$100,000 at retail prices, belonging to more than half a dozen well-known firms. Bruns was supposed to be on his way to Boston on a business trip when he vanished. Although an employee of only three months' standing, he had been in the trade fifteen years and had so won the confidence of his firm that he had his name put on the door and was entrusted with diamond and platinum bracelets costing \$22,000 on no further security than his memorandum. When Bruns was not heard from after a reasonable time, his employers made inquiries in the trade and found he had obtained valuable samples from other jewellers who knew him well enough to call him by his first name. He signed for the samples on Segman & Abraham's receipts.

Frazier Must Serve Term of Six Years

Supreme Court Refuses a Writ of Error in His Case and Verdict of Corporation Court in Danville Stands.

C. A. (Rube) Frazier will have to serve six years in the penitentiary for having stolen an automobile, of which offense he was convicted in the corporation court here July 24th 1922. Otis Bradley, clerk of the corporation court today received a writ from the Supreme Court of Virginia, announcing that Frazier had been denied a writ of error and that therefore the verdict of the Danville jury must stand. The court, the writ said, was of the opinion that "the said judgment is plainly right and doth reject said petition, the effect of which is to affirm the judgment of the said corporation court."

CUPBOARD TURNS OVER

There was a near calamity in police headquarters this morning when Police Officer C. T. Cook reaching to a high shelf in the store cupboard where evidence and many other papers are kept overturned the bulky furniture. Other officers hastily went to his rescue and prevented the cupboard from falling on the officer. Bottles of Baizer, containing prisoners in jail, as well as numerous papers were piled in confusion on the floor. The cupboard was replaced by main strength and little damage actually was found to have been done.

SAILORS TAKEN BACK

Two sailors, Frank E. McCoy and Ellis H. Williams, picked up about a week ago by Sergeant Haraway, were taken back to the naval base at Norfolk last night by Officer R. A. Adams. Both men are said to be A. W. O. L.

Four Men Are Put to Death

Drunken Driver Gets Thirty Days

To drive a car while under the influence of whisky is becoming a more serious offense in Danville and the charges are carrying more severe penalty. This was indicated this morning when Wesley Keen, negro, was fined \$101 and costs and sentenced to serve 30 days in jail on being convicted of operating a car while intoxicated. Keen noted an appeal. A disturbance which took place at a rooming house on Union street operated by Miles Mallie, resulted in fines being imposed on six men this morning on drunk and disorderly charges. The men had rented a room and started a row which resulted in Mallie informing them that he would not tolerate such behavior, whereupon a general disturbance started, during which a pop bottle was hurled. The men fined this morning were David Canada, \$10 and costs and G. F. Hudson, B. J. Shivers, T. S. Barlow, Reed Lawrence and Siny Leeds were assessed \$11 and costs. J. W. Lillard was fined ten dollars and costs for not having proper lights on his machine. Tom Trent, colored, drew a \$20 and costs fine for having a concealed weapon. A case of housebreaking against the negro was sent to the grand jury.

E. J. Moxley Succumbs To Lingering Illness

Eugene J. Moxley, age about 22 years, passed away this morning at 8:30 o'clock at his home in the country near the city, after a lingering illness. His death was not unexpected for he had been suffering with a stomach complaint for several years, having been bed-ridden since last July. The complaint had been thoroughly described but attending physicians were puzzled as to the cause. Deceased had been a resident of this section for practically his entire life. The funeral arrangements had not been made this afternoon and will be announced later.

New Police Rules Are Being Printed

The rules and regulations which are to govern the conduct of the city police department and which were adopted some time ago by the police board to be issued in booklet form, commissioners have been sent to the printer. It was expected that these rules would become effective yesterday but reconsideration of some of the regulations resulted in a delay in having them printed. They will not be put into effect until the members of the force have had a full opportunity to study them.

Murderers Show Sangfroid As They Enter Death Chamber--One Examines the Apparatus.

(By The Associated Press)
LITTLE ROCK, Feb. 2.—Four men convicted of murder died by electrocution at the pen early today. All faced death calmly. The men went to the chair in the following order: Duncan Richardson, Ben Richardson, E. C. Gullen, all convicted of the murder of Ira Culp, farmer, and Will Debord, convicted of the murder of Mr. and Mrs. Sisley in Stone county. Duncan Richardson, 22, was brought into the death chamber several minutes before the apparatus was ready. "Good morning, gentlemen," he smiled to the witnesses and attendants. He displayed no nervousness but walked about the chair looking at it and started towards the switch-board where the executioner was at work. The executioner moved quickly away. "Don't be afraid of me," Richardson, who was not handcuffed, said. "I would as soon have you do it as anyone."

Farmers' Bill Is Sure To Pass

(By The Associated Press)
WASHINGTON, Feb. 2.—Passage by the Senate today of the Lenroot-Anderson farm credit bill regarded as certain when a vote is taken under the agreement reached Wednesday will complete action by that body on its farmer relief program. The Capper bill, companion measure to the bill to be voted on today recently passed the Senate and has been referred to a committee by the house. Numerous amendments remained to be disposed of before the final vote. Among those acted on yesterday only one of importance adopted was that offered by Senator Swanson, Democrat, Virginia, providing for distribution of excess capital of credit agencies to be financed by the government.

MRS. B. C. TRAVIS PASSES AWAY

Mrs. B. C. Travis, 68, died at her home near this city, yesterday at noon. She has been ill since Christmas and the end was not unexpected. She is survived by her husband, B. C. Travis, three sons, L. G. Travis, Pittsylvania, J. F. Travis, Pittsylvania, and J. S. Travis, Haywood, N. C., and four daughters, Mrs. W. H. Hodges, Pittsylvania, Mrs. W. D. Davis, Caswell County, N. C., Mrs. Ross Lewis, Winston-Salem, N. C., and Miss Annie Travis, of Danville. The funeral will be held at Shady Grove Church this afternoon at 3 o'clock, conducted by the Rev. Melvin S. Taylor, of Epiphany Church, and the Rev. J. T. Stanford, of North Carolina.

EXAMS AT D. M. I. ARE FINISHED

The first semester examinations at D. M. I. were completed yesterday afternoon and immediately thereafter the cadets were given extra leave and most of the boys took advantage of the privilege and were to be seen down town.

All of the examination papers have not been corrected but those that have would indicate that splendid classroom work has been done at the school during the first half of the year.

Classification and assignments for the second semester will be made today and active work in the second half of the year will begin.

INVITATIONS TO RECEPTION

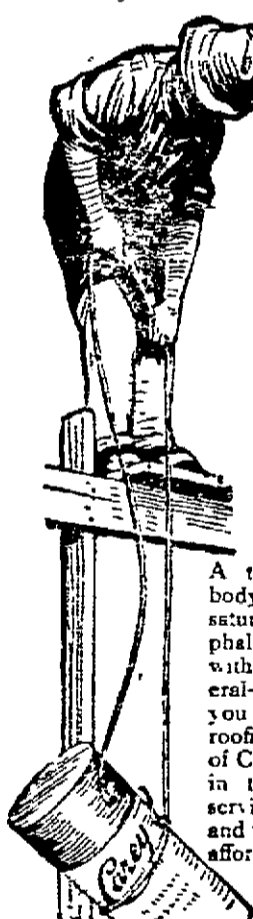

Mrs. Warner Moore and Mrs. Warner Moore, Jr., of Richmond, Va., have issued invitations to a reception to be given at the Woman's Club, in that city on next Friday afternoon, February 9th. Mrs. Warner Moore, Jr. is widely known here as the former Miss Conway daughter of Mr. and Mrs. P. F. Conway, of Danville.

Piles

are usually due to straining when constipated. Nujol being a lubricant keeps the food waste soft and prevents straining. Doctors prescribe Nujol because it not only soothes the suffering of piles but relieves the irritation, brings comfort and helps to remove them.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

Diocese Council Adjourns Here To Meet In Norfolk

The Council of the Diocese of Southern Virginia, in thirty-first annual convention, adjourned sine die yesterday afternoon at 2:30 o'clock, and the delegates, clergy and lay, began making preparations to return home. Practically all of the delegates had left by midnight last evening. The Council convened Tuesday at noon.

The Council just ended was remarkable for the amount of business and the dispatch with which it was transacted. The machinery of the body seemed to function better than is usual with church gatherings, there was a fine spirit of co-operation and an instant response to the Church's needs as they were demonstrated. The report and discussion of reports, consideration of the many problems that confront the Church and plans for the future.

The 1924 Council will be held in St. Andrews Church, Norfolk.

At the end of the morning session the Council had so nearly concluded its labors that it was decided to push on without any pause in order to adjourn in the early afternoon. Reports of church activities and from the various diocesan educational institutions were presented one after another and received, usually with some verbal tribute from the bishop on the progress recorded. Dabney House in Pittsylvania county reported as "the outstanding new venture in the Diocese."

Rev. Dr. Edwin R. Carter of Petersburg presented the report on the state of the church which usually reflects the progress of diocesan affairs as an entity and from which its health can be gauged. While the general tenor of this report reflected a most encouraging condition of the church affairs, due note was made of certain perplexing problems which the church faces in counteracting a reaction which has set in. The report chronicled a decrease in the number of confirmations during the year. This was ascribed to the new attitude towards the church which the young people have adopted and which has become noticeable since the war. Attention was called to the gravity of this condition and while the diocese and those who labor in it were absolved from being responsible for the psychological condition, the Council was urged to meet this situation and to lose no time in taking steps to rectify it.

Collections of diocesan assessments also showed a falling off, this being ascribed due to the economic condition of the country during the past few years and which does not reflect largely interest in the financial phases of church work. In 1920, the report says collections totaled \$142,000, in 1921, \$124,000, and in 1922, \$85,000.

Balancing the score however was the fact that the number of vacant churches is smaller than it has been and there is an increase in the percentage of clergy. The forward strides taken in promotion of Christian education was a source of gratification to the diocese showing the development of young material eventually destined to become leaders in the church. This phase of church activity is claiming more and more interest in the Council.

One of the last ones taken by the Council and one which carries a note of personal interest was provision for the commemoration of Bishop E. D. Tucker's fiftieth anniversary. A committee of five was appointed to prepare for a celebration to be held at St. Paul's Church, Norfolk in June when the half century of divine service by the venerated Bishop will be celebrated. St. Paul's church is one of the most historic in Virginia. In it Bishop Tucker was ordained nearly fifty years ago and he was rector of the parish for many years. Bishop Conover Arthur Conover Thompson is chairman of the committee other members being Rev. W. A. Brown, Portsmouth (son of H. W. Brown of this city), Rev. J. S. Meredith, Norfolk, Archdeacon Wallace Ruble of Halifax and Archdeacon J. S. Russell (colored) of Lawrenceville. The celebration in June will be an event of considerable interest in the Episcopal church of Virginia.

Bishop Tucker presided at all of the sessions of the Council here and took part in all the religious exercises. He conducted the sessions with such dispatch that the Council concluded its labors one session ahead of time. Just before Bishop Tucker rose yesterday afternoon to announce the reading of the minutes of the session several eleventh hour amendments to reports were acted on quickly. One of these provided that the parish of Cambridge be organized. The name of the church will be Emmanuel. Another resolution adopted was that the record of the diocese be made up as soon as possible in order that the proceedings of the deliberations here may be made known to the various congregations without loss of time.

The state of business wiped clear, Rev. H. H. Covington offered a resolution thanking the church and the people of Danville for their cordiality and hospitality and thanking the press for the publicity given the Council.

Black Cat Path Leads to Prison

BY ALEXANDER HERMAN
(Copyright, 1922, By The Bee)

NEW YORK, Feb. 2.—The terror of the New York police force, who throws the fear of the law in even the most hardened criminals, is just a plain, black cat.

"Nig" is his name and before him murderers break down, thieves confess and crooks bare their souls. None seems able to stand up under his penetrating gaze.

Last Christmas a salesman was beaten and robbed by a hack driver. The police were making little headway with the case until they picked up a suspect a few days ago. He denied any connection with the crime and pleaded with such sincerity that the authorities were about to let him go.

Just then Nig came on the scene. The superstition of the ill that much of the light cat walking in front of him broke the spirit of the prisoner. His resolve fell away like a mask. Trembling he cried:

"Take dat cat away boss, please! Ah'll tell yo de truth, deed ah will. Ah know ah's robbed a deuce. Well look dem eyes dere."

Nig's eyes had turned the trick where a regular third degree had failed.

A man had slashed his wife's face with a razor. The police caught him but he denied everything. They grilled him and quizzed him. But he was firm.

Nig was watching the performance from atop of a piano. The prisoner was being taken from the room, the cat jumped down and crossed his path. The man stopped short in his tracks, and gasped. A detective quick to grasp the opportunity turned out the light. Darkness—except for the two green glows which moved about ever so slowly. With a moan the prisoner sank to the floor.

"Turn on them lights, mistah," he moaned. "Ah done it! Ah admits it! Only take dat cat outn' here."

It was a triumph of a silent third degree.

But such superstitions aren't confined to one class of prisoners. Not long ago a handsome young woman

proceedings. The resolution follows: "Resolved, that the Council express to the rector, vestry and congregation of Epiphany Church and to the citizens of Danville our sincere and heartfelt thanks for the excellent reception we have received and for the cordial hospitality with which we have been entertained."

That we express our appreciation of the full reports of the proceedings to the rector, vestry and congregation of Epiphany Church and to the citizens of Danville our sincere and heartfelt thanks for the excellent reception we have received and for the cordial hospitality with which we have been entertained."

Later Bishop Tucker took occasion to express his personal thanks to the press for the manner in which publicity had been handled as to the Council. He asked the Rev. Malcolm S. Taylor to make a visit to the office of the Registrar and Bee and this Mr. Taylor did.

The last business act was that of reading the minutes of the day's work this being done by Rev. W. A. Brown, secretary. "Blessed Be Thee That Binds" and after prayers by the bishop he pronounced the benediction.

D. M. I. Trustees Will Meet Today

The mid-winter meeting of the Board of Trustees of Danville Military Institute will be held this afternoon at the school. Among the out-of-town trustees who have signed an intention of attending the meeting are J. S. Brown, Parish, Richmond; Dr. J. D. Eggleston, president of Hampden-Sydney College, James R. Caskey, Lynchburg, Campbell Panckake, Staunton, Dr. T. S. Wilson, News Ferry, and Dr. Andrew Bud, Washington, D. C.

The purpose of the meeting of the board at this time is the consideration of plans for next year. Col. W. M. Kemper, superintendent of D. M. I. has mapped out a program which he will present to the trustees for consideration. It is planned to double the enrollment for next year, to increase the faculty, add to the equipment and in every way enlarge the capacity and the scope of the school and its usefulness.

As an instance of the great interest which the trustees are taking in the school every member of the board, save one, expects to be present.

D. M. I. now has the prestige of being a synodical school with the full support and co-operation of every member of the Synod of Virginia. It was planned when the Synod took over the school to make D. M. I. a secondary boys school of first rank, and this plan is being born in mind of the present management and every effort is to be made for its consummation.

Despite the handicaps that confronted Col. Kemper and his able corps of assistants at the beginning of the present session—the first under the ownership of the Presbyterian church—much has been accomplished, and the school has shown steady growth, with the prospects bright for the 1923-1924 session.

To a visitor at the school the most striking change which manifests itself is the charming home atmosphere which prevades the whole school, which, dominated and directed by the superintendent and his wife, Col. and Mrs. Kemper, includes every caret and is bound to make its impress for good.

STREET CONCERT WEDNESDAY NIGHT BY MILITARY BAND

The local National Guard military band, under the leadership of A. A. Hall, Wednesday entertained a large crowd for some little time on Main street in front of Patterson drug company. Following the concert members of the band were treated to drinks and cigars by the drug company. Mr. Hall stated this morning that it was his intention to give concerts from time to time to the public at different places. The band, which was recently organized, have regular weekly drills.

Bronze Medals Are Out

Veterans of the Spanish-American war are eligible to bronze medals, which have been issued by the government and which are now being distributed to these entitled recipients. E. F. Graham of this city has already received his and is willing to assist any veterans of that war to secure them if application is made to him at 750 Patton street.

APPEAL IS REFUSED

The Supreme Court of Appeals has refused an appeal in the following cases:

Gilbert A. Rorer, a minor, by Mary E. Carr, his best friend, vs. Lucy Anne Gilbert and Kenneth Gilbert, from the Circuit Court of Pittsylvania County involving the terms of the will of John W. Rorer.

was arrested for shoplifting. It was apparent that she was no ordinary thief. She answered all questions with great self-control. As she was about to be led away, Nig passed by.

All self-possession vanished. The woman broke down hysterically and confessed. Nig blinked wistfully and sneaked off to find a mouse for luncheon.

Alleged Bank Robber Will Return To N. C.

Officers from Wilson, N. C., are expected here today to take back to the North Carolina city Billy Smith, who was arrested here about a week ago by Sergeant J. Hamblin Martin and held as a suspected bank robber. Sometime in 1921 the bank at Black Creek, N. C., was robbed by a band of men. Several of the robbers were caught and several escaped. Among the number was one William or Billy Smith, a man advanced in years.

A few mornings ago, just before dawn, Sergeant Martin saw an elderly man, somewhat seadily dressed, sauntering into the thrifty display windows of the American National Bank. The officer approached and interviewed the man, who gave his name as William Smith. He said he was from the North and was looking for work. Sergeant Martin remembered the description sent out in 1921 of the alleged Black Creek bank robber who escaped and he named that William Smith, from the North, who seemed interested in the American National Bank, and who said he was looking for work, but did not have the appearance of a bank clerk, fitted that description to a "T."

Sergeant Martin telegraphed North Carolina authorities and yesterday received a letter in reply, asking if there were any charges against Smith here. Chief Bell telegraphed back that there was none and that Smith had expressed willingness to return to North Carolina without requisition papers. So an officer from Wilson will probably arrive today for the man. Smith denies that he is wanted for robbing a bank in North Carolina.

MRS. YARBROUGH BURIED YEST'DAY

The funeral of Mrs. T. B. Yarbrough, who died early Wednesday morning in a Greensboro hospital, was held yesterday afternoon from the residence 848 Paxton street at 3 o'clock. The body was brought here Wednesday afternoon. The services yesterday were conducted by Rev. James M. Shelburne. Interment was made in Green Hill cemetery.

The pall bearers were: P. H. Boisseau, B. V. Booth, W. W. Williamson, L. T. Perkinson and J. Sonnenberg. The floral designs were carried by the following: Jesse Yarbrough, Charles Carter, C. S. Myers, W. T. Fowkes, Stanford Wright, M. Callahan, Dr. Kent, Basil Haraway, W. Ferguson, Earle Shuff, Mr. Deoria, Hans Silvestra, C. E. Kelly, George Wagner, Edward Wagner, James Aldridge, J. T. Adams, R. E. Thompson, A. E. Garrent, Claud Adams, D. P. Garvin, J. H. Hopper, Luther R. Fair, R. E. Hark, J. L. Brown, W. P. Wade, H. E. G. C. D. Hudgins and Fred Anderson.

Miss Fannie Ferguson is reported improving at her home on Franklin street from an attack of tonsillitis.

Miss Mary Duke, who has been visiting her uncle, S. T. Daniel, has returned to her home in Norfolk.

Mrs. Aubrey S. Misset has returned to her home in Washington, D. C., after spending some time in Danville.

The Women's Union Prayer Meeting will meet with Mrs. C. M. Hunter, 664 Jefferson street this afternoon at 3:20 o'clock.

Getting Rid of a Stubborn Cough Is Childs Play Now

Make the Medicine Yourself at Home. It's Cheap—but You Can't Beat It. If you want to take care of that bad, hacking cough and do it in a few hours, better get one ounce of Eucalypti (double strength) and mix a half pint at home.

You can do this in two minutes by adding a little sugar and enough water to fill a half pint bottle. You'll travel the world over before you get a medicine that will act so surely and quickly on the mucous membrane of the nose and throat. It halts the inflammation, the tickling sensation stops with the first spoonful, the heavy breathing goes and clean membrane, free from irritation and mucus follows.

For Catarrhal conditions such as mucus dropping, clogged nostrils and watery eyes, it won't disappoint—ask for Eucalypti (double strength). Speak plainly so that the druggist will know exactly what you want.—adv.

DR. BURTON'S DEAL

LECTURE DATE

The Wednesday Afternoon Club is arranging to greet Dr. Richard E. Burton, brilliant scholar and lecturer, who will appear here in two lectures on next Tuesday, February 6th, at the First Baptist Church and under the club's auspices. In the afternoon he will speak in the Sunday school room of that church on "Contemporary Literature." That evening at 8:15 he will speak in the auditorium of the church on "The Bible as a Literary Monument."

Dr. Burton is regarded as perhaps the highest authority in this country on the drama and is a poet, playwright, and brilliant and profound student of literature. He is professor of English literature at the University of Minnesota.

"The New York Times" says of him: "As literary man and lecturer he is among the first in the ranks of the men of letters of this country."

Z. T. Willard of Baskerville, Va., father of Mrs. D. O. Lockett, died last night and will be buried this afternoon at 3:30 o'clock. Mrs. Lockett was with him when he passed away.

The Missionary Society of Mount Vernon church will have a sale at Skadden's book store on Saturday beginning at 9 a. m.

White teeth!
Pink firm gums!
Fragrant breath!

This is truly a complete dental treatment—two cleansers. Their combined action results in a true teeth, counteraction of destructive acids formed by fermenting food bits in unpractical crevices, a hardening of gums, sweetening of the breath, invigoration of the entire mouth.

Complete Dental Treatment!

Real Economy in Horse Feed

It costs less to feed your horses and mules on Tuxedo Chop. It actually costs less per feed than anything that can compare with it in feeding results.

Because Tuxedo Chop contains just those food elements which your horses require, and in just the right proportion, there is no waste. The grains are crushed, and the feed is easier digested and more completely assimilated.

Horses and mules relish Tuxedo Chop. Ask for a copy of the Tuxedo Primer. It is brim full of facts about feeding.

Would you sow a handful to an acre?

What would you say of a farmer who sowed a handful of wheat to an acre? Take care not to make the same mistake when you apply commercial plant food. The best authorities in the land declare that your cash return on fertilizer is many times larger when fertilizer is applied in sufficiently large quantities.

At North Carolina Experiment Station, on sandy loam soil, the use of 1000 lbs. of fertilizer per acre made a cotton crop that yielded six times as much profit on the fertilizer investment as when only 200 lbs. was applied per acre.

Some fertilizer is worth more than other fertilizer for the same reason that some mules are worth more than other mules. You know how expensive a cheap mule can be. Think how unwise it is to risk all the time and labor and seed you put on a crop by trying to save \$1 a ton on the fertilizer.

We are proud to say that Royster's fertilizers have never been made to meet a price. They are made of the best materials obtainable, compounded to meet the special food requirements of the crops for which the fertilizer is intended. For nearly 40 years Royster fertilizer has been the reliable, dependable friend of the man who demands something besides a cheap price to recommend a fertilizer to him. Royster's brand means a balanced ration of plant food, scientifically prepared for the particular crop, and made available in just the proper proportions.

For instance, Royster's famous old cotton mixtures have been scientifically revised to insure an early crop, which is so important in fighting the weevil. Look for the well known FSR trademark on the back of every bag. It's like sterling on silver. F. S. Royster Guano Co.

German Waiter Again Appears In Old London

BERLIN, Feb. 1.—After the beginning of the new year I shall not be serving you any longer, I am going back to try and get my old position in England.

A servile German waiter in one of Berlin's better-class restaurants was overheard making the above remark in English to an American diner. Asked why he had delayed so long after the war in seeking re-employment abroad, the waiter explained that only on December 25 had the English government lifted its post-war ban on German arrivals.

For this man, and doubtless hundreds of others in his calling here, that date had stood out long as a red-letter day on his calendar. He has been working for months and supporting his family, but in other restaurants he has been told that the tip per cent. tip legally prescribed for waiters in Germany, together with such added gratuities as benevolent guests were inclined to give, was not sufficient to support his family.

He is not alone. In fact, there are abroad not only one-sixth of the German and Austrian cooks and waiters who were in foreign employ before the war. When hostilities broke out many dropped their tools and took up a rifle, others were deported or interned; some were caught while visiting in Germany and, willingly or otherwise, became a part of the military forces.

In 1914 there were some 3,000 German and Austrian cooks in foreign countries, and 15,000 waiters. Today there are from 500 to 1,000 cooks and about three times that many waiters. The latter figures do not include a large number of Germans who remained in the United States throughout the war.

Chicago is cited here as having hitherto been the most popular point of attraction for the outside world. In that city alone, before the war, the German and Austrian cooks numbered 300 and the waiters no less than 1,000.

European countries also drew many of these employes away from their native tables and it is a source of surprise to many tourists here that frequently the man who serves them can speak as many as six languages. The waiter here is a source of interest, and naturally the recent relaxation in the English restriction finds a de facto among many here who are chafing at confinement within the vicious circle of low wages and high cost of living, with a market which is constantly depleting in value.

Next to England and America, Switzerland and Holland were the next to be "bombed" by these waiters. Coated with "bombs" of these waiters, when Germany obliged numerous Swiss waiters to leave the country at the outbreak of the war, the Swiss authorities took similar action against German waiters in Switzerland. Further, the Swiss employers came to the conclusion that the Germans had under their Swiss waiters so greatly that their competition was injurious to the country's native population.

Two years ago arrangements were made for an international exchange, but the German interests concerned worked to impede a waiters' exodus from the Fatherland. One of these obstructions was a demand that every German waiter going to Holland, six Dutch waiters were to be sent here.

Some of these workers abroad have been drifting to Italy and Spain, but the former country has shown strong resistance to their re-entry. Opposition to them also has been found in the Scandinavian countries and in the British overseas possessions. To offset the former German colonies the nation's requirements have been heightened ever recently.

Holland has been proving more and more of a magnet for German housewives as well. According to an official estimate recently announced here, there are at least 100,000 of these "frauleins" now on Dutch soil, with 16,000 in Amsterdam alone. The number is so great, it is said, that many are finding it difficult in obtaining employment.

SOUTH CAROLINA CROP TOTALLED 42,586,756 LBS

COLUMBIA, S. C., Feb. 1.—The South Carolina 1922 tobacco crop totaled 42,586,756 pounds, according to the final statement of the state department of agriculture recently issued. The average price received by growers was 20.55 cents a pound.

Independent warehouses handled 27,219,967 pounds, which brought \$5,585,735 and cooperatives handled 15,366,789 pounds. The total price paid for tobacco handled by the Tobacco Growers Association was not divulged.

The Lake City market, the largest in the state handled a total of 5,226,508 pounds with Mullins second with 7,035,517 pounds.

AMERICAN SPIRITUAL FORCE

(Christian Science Monitor)

When Miss A. Maude Rodden, who is widely known in England for her lectures and sermons, declared at a meeting in Boston, Mass., that America was the one country in the world that seemed to have the vital spark left which, imparted to a world that was in despair, might have the spiritual force to save it, she stated clearly what many others today are gradually coming to see dimly. And when she explained that America, though it should attempt to maintain its "splendid isolation," could not do so in reality, because the Nation thereby would be running counter to the universal law, the violation of which in the past had brought all other nations to decadence, she added to the moral appeal the lessons of history and reason. It is useless to turn the eyes away from the progress of today in a vain pretense that the world is the same as it was a century ago, for all conditions have changed, and with them the relationships of the peoples. The idea of universal brotherhood is being forced upon the consciousness of the world by the very proximity of the nations, and to ignore this fact is to shut the eyes to what is self-evident. If the issue is faced courageously, it will be well to remember that the spiritual law is unchangeable and absolute and that it brooks no interference.

CANADA TO HONOR ORIGINATOR OF CHANTELER

OTTAWA, Can., Feb. 1.—A monument in honor of the founder of the only Canadian breed of domestic fowl, the Chantrelle, will be erected by the Oka Agricultural Institute, La Trappe, Quebec. The memorial, which will be a large block of granite as high as a horse, will be surrounded by a bust of Brother Wilfrid, poultry husbandman of the institute and originator of the breed. An iron arch will carry in reproduction, a pair of Chantrelles, friends of the breed to erect the memorial, through the co-operation of the department of agriculture.

FOUR WHITES TO BE ELECTROCUTED

(By The Associated Press)

LITTLE ROCK, Feb. 1.—Four white men, the largest number ever legally executed in Arkansas, will be electrocuted at the state prison here tomorrow morning. Last minute appeals for executive clemency made today to Governor McRae, including a "confession" by a brother of one of the condemned men, were unavailing and tonight all preparations for the execution had been completed.

The four men spending tonight in the death cells at the prison are Will Debor, Duncan Richardson, Ben Richardson and F. C. Eulen. The Richardson are brothers and Ben is about 19 years old. Duncan Richardson today, in an effort to secure a reprieve for Ben and Eulen, made his "confession" in which he took full blame for the murder of Ira Culp, the crime for which the three will die tomorrow. The body of Culp, a farmer, who lived near Wilmet, was hacked to pieces and partly burned. The crime for which Debor will die was the murder of Mr. and Mrs. W. N. Silsby, in Stone County, which attracted much attention as the Stone County "hatchet case". The bodies of the victims, found in a field several days after the murder, were horribly mutilated by blows with an axe and hatchet.

BAGWELL FREED BY KIDNAPPERS

(By The Associated Press)

DUBLIN, Feb. 1.—A proclamation issued today by Liam Lynch, Republican chief of staff, refusing to surrender hostages under Minister of Defense Mulcahy's threat of punitive measures, throws some doubt upon the reported release by the Republicans of Senator John Bagwell, general manager of the Great Northern, who was kidnapped Tuesday night.

(A Dublin dispatch today said it was officially confirmed that Senator Bagwell had been freed.) Mr. Lynch's proclamation after pointing out that the Irish already have been executed by 55 officers and men of the Republican Free State, says the army is determined that it will not longer suffer its members thus to be dealt with and allow the national issues of war to be violated with impunity.

NEGRO LABOR IS MOVING NORTH

(By The Associated Press)

WASHINGTON, Feb. 1.—A noticeable movement of negro labor from the South to North industrial centers, which though neither widespread nor general, was regarded as unusual because of the negro's normal reluctance to move north and south. Further, the winter was announced today by Secretary Davis of the Labor Department on the basis of a report by Philip H. Brown, commissioner of the Department of Agriculture, that the movement of this class of labor, continued migration appeared to be indicated.

ROANOKE WATER WORKS BUCKS CORP. COMMISS'N

(By The Associated Press)

RICHMOND, Va., Feb. 1.—The state corporation commission was notified today by counsel of the water system privilege for the expenditure of \$250,000 for 2 years would not be accepted by the company, and that the case would be appealed to the state Supreme Court of Appeals.

At a hearing last March the commission granted the company a rate increase of 11 per cent and this increase was continued, another hearing in August, but with the stipulation that the company spend \$500,000 in two years in improvement. The commission also held that the company was over-capitalized and ordered its reorganization.

The water company contended that it was entitled to the increased rates without making the improvements.

HOLD PRICES DOWN

WASHINGTON, Feb. 1.—Manipulations in the New York Cotton Exchange were defeated in the Senate today by Senator Heflin, Democrat, Alabama, to be responsible for the recent rise in cotton prices of several dollars a bale. Senator Heflin said it was the purpose of cotton speculators to hold down prices until all of the crop was out of the hands of the producers and then raise prices.

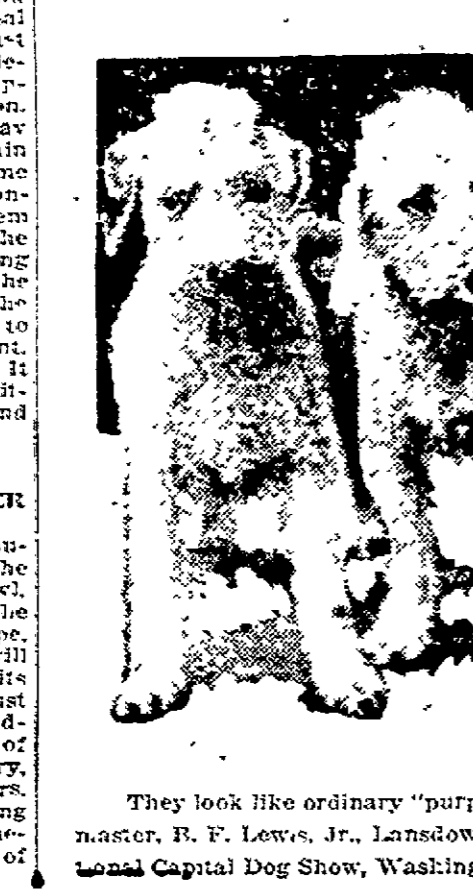

DUAL FUNERAL SERVICE

(By The Associated Press)

NEW YORK, Feb. 1.—To accommodate the large number of mourners dual funeral services were held today on two floors of the Zion Lutheran Church in Brooklyn for the Rev. Lauritz Larsen, president of the National Lutheran Council and the Norwegian Lutheran Deacons Home and Hospital in Brooklyn. Dr. Larsen died Sunday night in Erie, Pa., while on a speaking tour.

Prominent clergymen from various parts of the country were present.

THESE DOGS ARE WORTH \$25,000

They look like ordinary "pups"—these Bedlington terriers—but their master, R. F. Lewis, Jr., Lansdowne, Pa., who exhibited them at the National Capital Dog Show, Washington, says he values them at \$25,000.

GETTING PRIMED FOR DOG DERBY

Mushers, like "Smoky" Gaston, shown here, are preparing throughout the United States, Canada and Alaska, to enter the great American dog derby, which starts from Ashton, Ida., Feb. 22. Inset shows "Tud" Kent, American champion dog driver, who will strive to retain the cup he holds.

U. S. Official At World Meet To Fight Anthrax

WASHINGTON, Feb. 1.—A world wide move looking toward setting up permanent precautionary measures to prevent the spread of anthrax has been initiated, according to Dr. M. Dosset, of the Department of Agriculture. Dr. Dosset has just returned to Washington from London, where unofficially, he attended the conference of the International Advisory Committee on the Prevention of Anthrax.

This conference, consisting of members from Great Britain, India, Australia, South Africa, Italy, Sweden, Germany, France and Belgium, went on record as favoring adoption of protective measures by all nations of the world. At the same time the conference sought to determine more effective methods for disinfecting wool hides, skins and hair, most common carriers of anthrax.

Anthrax is an infectious disease of cattle, horses and sheep, which usually is transmitted to humans through the medium of hair brushes. Repeated steps to wipe out anthrax in this country have been made in Congress. In the last Congress a bill was introduced which would prohibit the importation of near furs. During the Fordney-McCumber tariff clash a similar attempt was made. The Department of Agriculture is devoting considerable time in experimentation with new methods of disinfecting wool.

Deaths in the country caused by anthrax, as compared with other nations, have been relatively few, there having been only 222 deaths from this disease in the 8 years preceding 1917, in places where they might have been prevented by proper disinfection. No method of detecting anthrax in wool and skins has yet been found.

CO-OPERATION IN CANCER SOUGHT

(By The Associated Press)

COLUMBIA, S. C., Feb. 1.—Fifty thousand lives might be saved every year through intelligent cooperation between physicians and laymen in the treatment of cancer, Dr. J. Lee Wesley Long, of Greensboro, N. C., said here tonight in an address at a public session of the meeting of the North Carolina and South Carolina divisions of the American College of Surgeons. He was one of a number of speakers at tonight's program which included Dr. Stuart McGuire of Richmond, Va., Dr. Carl A. Hamann, Cleveland Ohio and a number of others.

CLOTHING

PHILADELPHIA, Feb. 1.—Orders for men's clothing for spring are very brisk today and manufacturers are well employed. Suits have advanced about 10 to 20 percent in price. This is attributed to the fact that wages are 10 percent higher than a year ago and fabrics also have advanced. Skilled garment workers are scarce.

TUMULTY TAKES OVER WILSON'S OLD OFFICES

BY GEORGE H. MANNING

WASHINGTON, Feb. 1.—Joseph P. Tumulty is to move his law offices to the suite recently vacated by the late President Wilson, the partnership of the former President and his Secretary of State, which was dissolved some months ago, when Mr. Wilson found himself unable to longer attend to law business and the partnership failed to prove the attraction that had been hoped for it, especially in a financial way.

Mr. Tumulty, who was private secretary to President Wilson during his eight years in the White House, was recently ousted from his suite of offices in the Southern Building when the owners took his case to court and obtained a decision that he could not longer hold possession as a sub-tenant of former Secretary Joe Bailey of Texas, who had moved out of town.

In looking about for some place to go he was offered the Wilson-Colby suite. It is a peculiar coincidence that he should obtain these offices formerly occupied by his former chief, with whom he has not been on speaking terms since publication of his "memoirs" of the Wilson administration which were anything but complimentary to the former President. The Wilson-Colby offices are in the American National Bank Building, which was formerly the headquarters of Mr. Tumulty's every personal and official confidence from a time several months before the latter entered the White House until several months after his retirement to private life. Does not retain even the good wishes of the former president since he laid bare his secrets in the newspapers. It seems odd that Mr. Tumulty should profit by the business failure of his former chief.

15-Year-Old Boy Sued For Divorce

DETROIT, Mich., Feb. 1.—For the first time in the history of Michigan a 15-year-old husband is being sued for divorce and alimony. The plaintiff, Mary E. Chadwick, alleges that her youthful husband, James Albert Chadwick, abandoned her after telling her mother he intended to go back to school and make a man of himself.

They were married May 5, 1922. At the time of the marriage the youthful bridegroom and his bride were given a book on the beautiful life of married life. It was from this book, says Mrs. Chadwick, that her husband each day quoted the following excerpt to her:

"The husband must see that the early tender affection of his wife, the gentle tone of life's morning does not grow harsh. He must love his wife through all the vicissitudes of life down through the declining age to the sunset years."

In August, 1922, James listened to the advice of his parents and left her without any means of support, according to Mrs. Chadwick.

Steamer Burns To Water Edge

(By The Associated Press)

NORFOLK, Va., Feb. 1.—Burned to the water's edge and given up as a total loss, the American Steamer Buttonwood was beached south of Thimble Cut tonight by the coast guard. The crew, with the exception of Captain W. J. Richardson, his chief mate and engineer were aboard the Manning was landed at Sewell's Point by the tug Henrico.

When first discovered the fire on the Buttonwood had become so furious that the crew had been driven off in small boats before passing vessels had glimpsed the steamer's plight through the heavy fog. The Buttonwood, a wooden vessel, was anchored in Chesapeake Bay. The crew went aboard the Henrico.

Lacking wireless equipment the Henrico could only lay by until the fog lifted toward midnight. The West Quechee and American steamer passing out at sea, then saw the burning ship, warred for help and proceeded to her assistance. The call was received by the Steamer Ontario, Norfolk to Boston, which went to fight the flames.

The Manning was sent from Norfolk to the scene. The Buttonwood sailed from Norfolk Wednesday afternoon with a cargo of coal bound for Fall River, Mass. The origin of the fire is unknown.

STATE BODY ON PORT BUSINESS

PETERSBURG, Va., Feb. 1.—The organization of a state body to coordinate the activities of business and trade organizations throughout the state was proposed at a meeting here today of the Virginia Port Commission. Although the members discussed the project at some length.

Harmony among state officials and members of the General Assembly was declared by members of the commission to be necessary to the successful executive of a highway program. The road problems of the state were discussed by a number of speakers, who insisted that money should be provided by a bond issue or a tax on gasoline for improvement of the state's highways.

The appointment of a harbor engineer at Norfolk was made. It was stated by members of the commission declined to give his name. It was said the commission had not been advised that the new engineer would accept the post and until his decision was made his name would not be made public.

After the meeting it was announced that the money for rebuilding the hotel at Old Point had been raised and work on the structure probably would be started next summer. The next meeting of the commission will be held in Richmond on March eight.

BOLD ROBBERY IS UNDER WAY

(By The Associated Press)

NEWPORT NEWS, Va., Feb. 1.—Lieutenant Isaac Davies has been named as the investigation officer to assist the board of officers named to complete the inquiry into the robbery and holdup of Captain Norman Cota and five privates by Corporal James S. Wood and John Harvey, at Langley Field. The investigation was gotten under way today and the board of which Captain L. R. Knight is the chairman, will probably forward the papers to the third corps area headquarters in Baltimore within a day or two.

During today the board heard statements from Roy Crockett, Andrew Moore and Mr. Parker, who were near the big army Cadillac when the robbers started the sensational trip to Yorktown and saw them order the men in the car to keep quiet. Several of the police officers, many soldiers and some civilian witnesses were also heard by the board.

It is that the sensational trip to Yorktown and saw them order the men in the car to keep quiet. Several of the police officers, many soldiers and some civilian witnesses were also heard by the board.

Wood and Harvey are still held in solitary confinement at the Langley Field guard house. They will be kept there until the trial is ended.

Pastor Denounces Oriental Religion

COLUMBUS, Ohio, Feb. 1.—"That the American Eve is eating the apple again is an assertion justified by the facts," declared Rev. Harold Congregational pastor of the Methodist Episcopal Church here.

Teachers of Oriental faiths come over here, and silly women follow them, giving up devotion, time and wealth.

"While the philosophy of the Oriental cults may be good the actual practice is sometimes horrible. American women guard against the vogue of Orientalism prevalent in this country."

"I have seen lewd carving on Hindu temples and shrines where fallen women are worshipped like gods. The statues of women in the Far East are the worst testimony of the faiths found there."

"Be assured of one thing—there is nothing good in these Oriental religions that cannot be found in our own faith. When you have found all they contain you can still find additional truth and comfort by devotion to Jesus Christ."

GROCERIES
PITTSBURGH, Feb. 1.—The wholesale movement in groceries continued to improve today. Stocks are very low in various places which has been affected by labor trouble. Restocking is stimulating business.

Ground Hog Says More Winter

We have given you advice on market conditions, but will admit that weather conditions have us guessing. If you have faith in the groundhog then you will have need for an overcoat yet this winter, If this sign means nothing to you—then it will be worth your while to buy a good overcoat for next winter at our reduced prices.

We have arranged all of our MEN'S SUITS and OVERCOATS in Three Groups.

MEN'S SUITS AND OVERCOATS THAT WERE:

Up to and including \$30.00.	From \$32.50 to \$37.50	From \$40.00 to \$55.00
SALE PRICE	SALE PRICE	SALE PRICE
\$19.75	\$25.75	\$34.75

(Raincoats, Tuxedo and Full Dress Suits Are Reserved.)

Alterations at the customer's expense.

BOYS' SUITS AND OVERCOATS AT 33 1-3% DISCOUNT
WINTER UNDERWEAR, SWEATERS, WOOL HOSE, GLOVES AND HATS AT 25% DISCOUNT

Italian Militia Adopts Black Shirt

(By The Associated Press)
ROME, Feb. 1.—Premier Mussolini's newly organized militia, which is mainly enlisted from the Fascist, is built upon the plan of the National Guard organizations in the United States. Service in the militia is voluntary, and is unpaid unless on active service. Its members follow their regular professions and occupations and drill in their spare time. They are to be used in case of civil disorder while, in the event of war, they will be merged into the regular army.

Already the new organization is filled with former soldiers and lads who participated in the recent historic Fascist coup, when Premier Mussolini was called to head the government. Preference, in choosing the personnel of the new force, is given to Fascist, Moderate Nationalists, Futuro legionaries and those of "proven Italian faith" are given the second consideration.

Units of the new militia will be placed in every town just as national guard units are distributed in the towns and cities of America. While no definite orders have been issued regarding the uniform of the black force, it is expected that the black shirt of the Fascist will be adopted. It has been pointed out that the black shirt is now traditional, just as was the red shirt in Garibaldi's time. The men in the new body are said to favor the black shirt in preference to an army uniform, for it was in these shirts they made their celebrated march on Rome.

The militia may be called to garrison duty in the Italian colonies in Africa. There they could supercede the regular army, the units of which would be returned to Italy for training in war tactics.

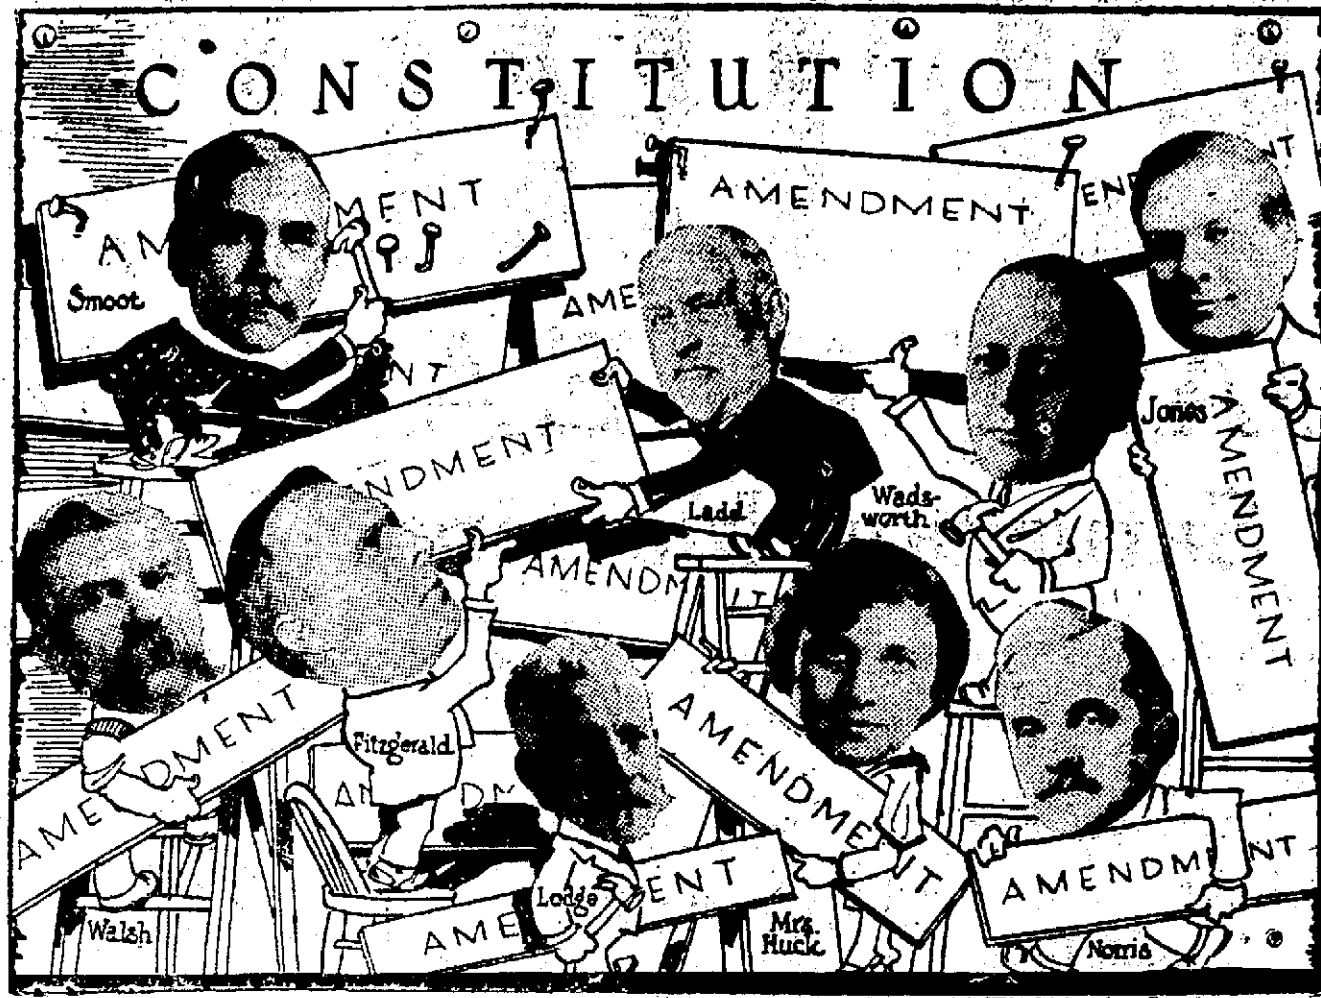

Daughter, Tired of School, Assists Ill Congressman

WASHINGTON, Jan. 31.—Two years ago Representative Mansfield (D., Tex.) was forced on the sick list. When, after weeks, he pulled through, he had to take a wheel chair. Throughout this period his correspondence and his Texas constituents received the same careful attention they had had when he was in full health.

The secret of all this is his daughter, Miss Jacqueline Mansfield, who, finding school a grind, had taken a business course in the Washington School for Secretaries to help her dad and had gone to work a month before he became seriously ill. Mr. Mansfield, though still in his wheel chair, has been back on the job for months and starts a new term March 4. He was re-elected last fall by a strong vote.

It was the way the girl swung into the job of secretary that made his constituents know things were going well at Washington so far as the 9th Texas was concerned.

"Quilting Bee" Congress

WASHINGTON'S FAVORITE IN DOOR SPORT—TACKLING AMENDMENTS ON THE CONSTITUTION.

BY HARRY HUNT
(Special to The Bee)
WASHINGTON, Feb. 2.—The next session of Congress promises to be a great deal like an old-fashioned quilting bee, that famous rural American institution that today is almost extinct.

National legislators, you see, seem to have been seized with a mania to make a crazy quilt of the constitution. More than 50 patches—of varied hue and shape—in the form of constitutional amendments have been cut by eager solons and are waiting to be sewn on the famous document. The amendment furor is one of the very latest things in national politics. For in our whole 134 years of government up to the present only 19 constitutional amendments have been adopted.

To Cure 19 Ills.
The 50 amendments now pending are looked to to cure or improve 19 different alleged national ills.

Child labor is most important among them. To abolish it 19 separate amendments are proposed. Typical of these is a resolution by Senator Henry Cabot Lodge of Massachusetts who'd alter the constitution to give Congress "power to regulate the hours of labor of persons under 18 and of women."

Senator Thomas J. Walsh of Montana is father of another child labor resolution. He would empower Congress to halt the transportation from state to state of products of child labor.

Next in interest to the provisions for protecting children come amendments changing the opening dates of new Congresses.

Senator George W. Norris of Nebraska wants terms of senators and representatives to begin the first Monday of January after their election. At present newly elected solons do not take seats for 13 months after election unless called in special session.

This same amendment would cause presidents and vice presidents to be inaugurated the third Monday in January instead of March 4. But Senator Norris has still another amendment up his sleeve. The second one would abolish the electoral college and cause the president to be selected by direct vote of the people.

Would Abolish War.
Mrs. Winifred Mason Hucks, women representative from Illinois, and Senator E. F. Ladd, of North Dakota have introduced a joint amendment which would force Congress before declaring war to submit the question to popular vote—save, of course, in cases of actual invasion.

Other amendments aim. To make president's term six years and bar him from a second term—by Senator W. J. Harris of Georgia.

To make state, county and city bonds taxable—by Senator Reed Smoot of Utah.

To grant suffrage and representation in Congress to residents of the District of Columbia—by Senator Wesley L. Jones of Washington.

To bring about uniform marriage and divorce laws in all states—by Senator Arthur Capper of Kansas.

To give federal government power to regulate use of money in federal elections—by Senator Frank D. Willis of Ohio.

To empower Senate to ratify any treaty by majority vote, instead of by two-thirds vote—by Senator Robert L. Owen of Oklahoma.

To bar children of alien parents from citizenship so parents would be eligible to citizenship—by Senator Wesley L. Jones of Washington.

To limit terms of Supreme Court justices to "good behavior" and of minor federal judges "Sheppard of Texas."

To bring about vocational representation in Congress—that is representation proportionately of agriculture, labor, capital and so on—Senator Wesley L. Jones of Washington.

And two more amendments relate to amendments themselves: Senator Owen of Oklahoma wants to amend the constitution so amendments can be made if the measure passes both houses by a majority vote and is ratified by three-fourths of the states.

And Senator James A. Wadsworth of New York, wants the business of amendment harder by requiring that the members of at least one house in each state Legislature should be elected after the amendment to be voted on has been proposed.

Champion Speed Boats To Race

(By The Associated Press)
NEW ORLEANS, La., Feb. 1.—Preparations are going forward here for a speed motor boat racing carnival which it is believed will prove one of the most important events of its kind ever held in the United States in mid-winter. The races will take place from February 15 to 18, during Mardi Gras carnival week. Entries will include America's finest hydroplane motor boats.

The meet is to be under the auspices of the Mississippi Valley Power Boat Association, which embraces practically all the yacht and motor boat clubs of the valley. The project is sponsored by the Southern Yacht club and other civic and commercial bodies of New Orleans.

The races will be for the nine classes of hydroplanes.

The entries include: "Miss America," Gar Wood's twin-engine champion of the world, that wrested the coveted Harmsworth trophy from the British in their own waters in 1921; "Miss Chicago," owned by Commodore Sheldon Clark, head of the Chicago Yacht club, that holds the world's championship in the single engine class of hydroplanes; "eight racing hydroplanes from Peoria, Ill., among them three champions in their respective classes: "Ethel XI" from Muscatine, Ia.; and others from Houston, Quincy, Bryanston and Los Angeles.

New Orleans will be represented with five entries: "Duke," "Speed King of the South," "Demon Run," "Miss Cadillac" and another. The races will be run on Lake Pontchartrain where the course of two and a half miles to the lap will be staked off paralleling the West Yacht club.

BUSINESS LIVING UP TO EXPECTATIONS IN S. W.

(BY DICK SMITH)
KANSAS CITY, Feb. 1.—Business generally in the southwest is living up to expectations based on the volume of trade in the latter part of the year although there have been seasonal declines in some lines.

Coal prices have fallen off about \$1 a ton as a result of the unusually warm weather.

Thirty thousand invitations have been sent out in this trade territory to Kansas City's spring market week, Feb. 12 to 17 and railroads have granted reduced fares.

Want Japan's Steel Industry Unified

(By The Associated Press)
TOKYO, Feb. 1.—The unification of the iron and steel industry long has been a subject of discussion and many people interested in the enterprise have been steadily working for the realization of the scheme. The councilors of the Iron and Steel Association recently passed a resolution advocating a thorough unification of the industry and presented the resolution to the government.

After dwelling on the important nature of the industry for the purpose of national defense the resolution goes on to say that the demand for iron and steel in the country is yearly increasing, bringing about a proportionate increase in the import of these goods and that if their import is not confined to proper limits the future of the domestic industry will be seriously compromised.

As things stand at present, the resolution states, private concerns are engaged in one branch or other of the industry and lack a thorough cooperation in the manufacture of pig iron and of steel and steel materials. The government steel works, it is pointed out, are conducted on a gigantic scale with the inevitable tendency that the official enterprise is always bringing pressure to bear upon private efforts.

So long as this state of affairs obtains no real development of the industry can be expected. The amalgamation of private iron and steel making concerns will be meaningless if the government steel works at Yawata is left out of account. For this reason the resolution urges the government to take this phase of the question into careful consideration and to map out a fundamental plan of unification of the iron and steel industry in the country, so that the government enterprise and private concerns may be merged into a comprehensive whole.

LUMBER CAMPS DULL DURING LAST MONTH

(BY PAUL C. HEDRICK)
SEATTLE, Feb. 1.—January is usually a dull month in the Northwestern Lumber camps but for the last week in January the Barometer mills of the Pacific coast operated at 8 per cent. above normal capacity, accepted new business amounting to 25 per cent. more than production and sold 20 percent more than was manufactured. At Wide Water flour mills are keeping production up to 75 percent of capacity while inland mills are running about 65 per cent.

Gas Explosion Wrecks Plant

(By The Associated Press)
SPRINGFIELD, Mass., Feb. 1.—An explosion of gas in the purifying plant of the Springfield Gas Light Company, wrecking one section of that structure today spread damage widely through the business section. Three persons were killed and 50 were injured.

Buildings within a radius of two miles were rocked, windows were shattered on all sides and the city proper tonight presented the appearance of a place bombarded with some of its finest structures in part ruin. Explanation of the explosion was lacking. Officially the gas light company said the cause was undetermined. Arthur S. Hall, works manager and superintendent said he could account for it only on the theory that a slow leak of gas had caused an accumulation under the roof and that this gas pocket became ignited and blew up. He asserted that the machinery, which constituted most of the plant was virtually intact and that the damage practically was limited to roof and walls.

All workmen insisted they saw no fire or light before the blast and Hall said he was seeking an explanation of the lighting in the electrical apparatus.

The injured were struck down over a wide area. In office buildings, city hall, the court house, banks and other places within a radius of two miles persons were hurt, those near the scene by wreckage from the explosion proper those farther distance, by crashing glass, falling ceilings and dislodged objects. Several automobiles in the vicinity were buried in wreckage and their occupants injured.

The city's famous civic group of buildings, the tall tower of the Campanile flanked by the City Hall and the auditorium, which were about a quarter mile east of the scene of the explosion, was shaken almost windowless. Memorial Hall, more to the south, did not have a whole pane of glass left. The Springfield Institution for Savings, a showy structure, was wrecked when the glass roof caved in.

RECORD BUILDING MOVEMENT IN THE SPRING EXPECTED

UNIONTOWN, Pa., Feb. 1.—Indications point to a record building movement this spring. Local architects and contractors report special activity in dwellings. The H. C. Erick Coke company is continuing its building program and will spend \$1,500,000 this year.

Corner Main and Market

THE HOUSE OF KUPPENHEIMER

CALIF. OPENS WAR ON DRUGS

SAN FRANCISCO, Feb. 1.—California took its first definite step yesterday to check the narcotic traffic in this State. A bill introduced by David C. Williams, Assemblyman in the Legislature at Sacramento, would revise the entire state "poison act" and impose a minimum prison sentence of two years for persons convicted of possessing, selling or dealing in narcotics.

The bill provides for indeterminate sentences for second offenses, and is to be followed by another aimed to co-ordinate the state's powers to control illicit narcotic traffic.

This definite action focuses attention on Canadian and Mexican smuggling which is the backbone both of liquor and narcotic violation in this State. James A. Johnston, warden of the San Quentin state prison; the physician and others authorized to speak on the subject, have informed newspaper men that there are no facts to show that prohibition has contributed to increased narcotic addiction.

This is considered important here, branding as wet propaganda the attempt to hold prohibition responsible for the drug habit. It faces up the situation squarely in which this State and others must act separately and jointly to prevent smuggling into this country of any poison, drug, or stimulant banned by the laws of Nation and State.

NEW MOVE MADE TO PUT TO END RUM SMUGGLING

(By The Associated Press)
WASHINGTON, Feb. 1.—The Treasury made a new move today to head off liquor smuggling. Acting under provisions of the tariff act, Secretary Mellon ordered all port officers heretofore to deny clearance papers to ships entering American ports "in alleged distress" until the masters of such vessels file bonds guaranteeing the production of a certificate of the foreign landing of the liquor cargo. The orders, it was said, may cause a decrease in the number of liquor carrying ships which seek a haven from storms in American ports or enter American waters for repairs.

VA. TECH BEATS ROANOKE COLLEGE

(By The Associated Press)
BLACKSBURG, Va., Feb. 1.—Virginia Tech defeated Roanoke College here today 25 to 27 in a mediocre game. The first half was miserable with both teams missing shot after shot. The Tech's led at the close of the period 12 to 5.

At the opening of the second half the game lived and the Maroons swarmed up to within three points of the Gobblers. Two beautiful shots by Brittingham put the game on ice. Rutherford and McClung starred for the collegians while R. Hodges and Brittingham were the shining lights in the Gobbler play.

COL. T. R. RIVERS DIES

(By The Associated Press)
NEW YORK, Feb. 1.—Colonel T. R. Rivers, 61, of the inspector general's department died yesterday at Governor's Island. He was graduated from West Point in 1883 and was also a graduate of the army war college. He was appointed a Brigadier General during the world war and commanded the 154th depot brigade, Camp Meade, Maryland.

Says—Now Stiff Joints Must Go!

New Discovery Limbers 'Em Up and Even the Creaking Ceases.

Yes: It's true—the world progresses. All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze Resinol on an inch of miracle-working substance from a tube.

Then rub it on the offending part for about a quarter of a minute, or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspaper and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease! They call this wonder-working substance for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling joint, Ease succeeds.

It's a good name for a good, clean, painless prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in the neck, shoulder, spine or finger, and for that purpose its sale is immense.

Druggists everywhere report a big demand.—adv.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, a remedial cream that is pleasant to take. Creomulsion is a new medical discovery with twofold action: it soothes and heals the inflamed membranes and kills the germ.

If all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, bronchitis and other forms of throat and lung disease, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.

"What is the horsepower of your car? What is its motor number?" are one of the questions to be flashed on the applicant.

Here a few of the questions taken at random:

"To what does the word 'vehicle' apply?"

"On what streets are you allowed to park either right or left side?"

"Are you allowed to use any license number of an automobile?"

"Tell me what you know about lights on an automobile."

"What does the law require sound signals?"

"At what rate of speed can you drive?"

"How fast can you cross streets, turn corners and cross car tracks?"

"Are you required to make reports on accidents?"

"As regards directions, which traffic has right of way?"

"When are you allowed to stop in the street?"

"How far from a fire hydrant may you stop?"

"What does the law require as regards closed vehicles?"

"What is the age limit of operators of automobiles?"

Enquiry at police headquarters this morning revealed one significant fact. The applicant for license will not be required to take the examination under police observation. The questionnaires can be taken home and filled out with the material assistance of the city's traffic code and answers to the question will be found therein.

Allen Ordered To Discontinue Relations Abroad

(By The Associated Press)

COBLENTZ, Feb. 1.—Major General H. T. Allen, who commanded the American forces in occupied Germany recently withdrawn, has been directed by Washington to discontinue immediately his unofficial relations with the Rhineland commission.

Resinol

Apply freely before retiring and cover with a soft cloth. In the morning you will be surprised to note how much of the soreness, roughness and angry look has disappeared.

Deer Driven Into
Cities By Storms

NEW HAVEN, Conn., Feb. 1.—Wild deer, driven into large towns by lack of food in their usual haunts, are terrorizing citizens this winter. Reports come from busy towns indicating a situation unknown before even in remote days. A Clinton citizen asks the Legislature to pay his expenses because a deer leaped through the windshield of his auto and caused the car to overturn, injuring the driver. A Williamamit minister barely escaped when a deer plunged through a window at the Y. M. C. A. and then jumped out through another window. A New Haven store had a plate glass window shattered by a deer, which died on the sidewalk shortly afterward.

A railroad train struck a herd of deer at Fairfield, killing two deer, of which one was a rare albino, and the train barely escaped wrecking. Carcasses of deer, starved to death, have been found in suburban pastures, and reports of deer, trapped in deep snow and slain and eaten by dogs are numerous, particularly from lower Fairfield County, where the deer seem to have headed for the shores of Long Island Sound. Bridgeport is accumulating a deer collection for its city zoo from animals found exhausted in its public parks.

HIS CONSCIENCE TROUBLED HIM

"I know I have done wrong, please forgive me for not doing my duty and writing you before. I am thankful to God for the good remedy He gave you, and would not take \$500 for the good the first dose gave me. I have been bothered for many years with gas in my stomach and indigestion, but since taking May's Wonderful Remedy two years ago, have had no such trouble. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach and intestinal ailments, including appendicitis. One dose will relieve or money refunded. J. C. McFall's Drug Store and druggists everywhere.—adv.

HOME REMEDIES OF OUR
ANCESTORS.

Almost every man and woman in America can remember the botanical remedies of our mothers and grandmothers for the treatment of disease, and they were wonderfully dependable too. Every fall there were stored away in the attic, the storeroom, the pantry, the cellar, wormwood, rue, etc., for treating ills of the family during the winter months that followed. In 1873, Lydia E. Pinkham's Vegetable Compound was first prepared from one of these botanical remedies, and the demand for it has increased to such an extent that hundreds of tons of roots and herbs are now used annually in its preparation. It has recently been proved that 98 out of every 100 women who try it have been benefited by its use, which is a marvelous record for any medicine to hold.—adv.

Ether Discovered
By Georgia Man
Before Morton

Dr. Stuart McGuire Makes
Interesting Statement Be-
fore Carolina Doctors at
Columbia.

(By The Associated Press)
COLUMBIA, S. C., Feb. 2.—"A dispassionate view of all the evidence in the case shows that Crawford W. Long, of Georgia, discovered and employed ether as an anesthetic four years before W. C. T. Morton's demonstration in Boston in 1846," Dr. Stuart McGuire, of Richmond, Va., declared in addressing the North and South Carolina Division of the American College of Surgeons here today. It is a fact, however, that Dr. Long did not publish his discovery and that owing to the remoteness of the district in which he lived, the knowledge of it was limited. Dr. McGuire asserted, Morton, he continued, while lacking priority at once achieved "great publicity" through the endorsement of "eminent surgeons and authors" of Boston.

"After eighty years the controversy as to the relative claims of the two men still goes on," said Dr. McGuire. "Recently, it has been activated by the action of the University of New York in voting Morton a niche in its hall of fame."

"Historic questions are usually correctly settled in time and the truth is first appreciated in foreign countries where there are no sectional prejudices. A survey which indicates the drift of opinion abroad is shown in the incident related by Dr. Frank Boland in a recent paper who states that when King Edward VII, of England, in 1902 avowed from the anesthetic, which had been administered to him in performing an operation for peritonitis, he asked his surgeon, Sir Frederick Treves, who discovered anesthesia?" Sir Frederick answered at once, "It was an American, your Majesty, Crawford W. Long."

"While anesthesia is the modern sense is comparatively new, the practice of attempting to relieve pain is old. The Assyrians used digital compression of the carotid artery to produce insensibility during the performance of a delicate operation. The Egyptians administered Indian hemp and the juice of the poppy to dull pain. The Jews relieved the death agony of criminals during crucifixion by applying a sponge to the face sat-

urated with 'The Wine of the Condemned.' The monks of the middle ages produced anesthesia by causing patients to inhale the odor of a Sleeping Sponges.

"Reference to anesthesia and anesthetics are frequent in the writings of Shakespeare and other authors. Dantinos in 1592 says:

"Even as a surgeon minding off to cut some careless limb, before in use he puts his violent engines in the victims members, bringeth his patient in a senseless slumber," and griefless then, guided by use and art, to save the whole, saws off the infested art."

"In the seventeenth and eighteenth centuries interest was taken in mesmerism and hypnosis, and repeated instances are on record where severe and prolonged operations were performed without pain to the patient by throwing him into an artificial sleep or trance.

"In 1774, Blistley discovered oxygen and initiated a new era in chemistry. Physicians found that inhalations of oxygen gave relief in angina pectoris and other ailments and employed it under the name of 'vital air'.

"During ensuing years many experiments, some scientific and others empiric, were made by medical men with various success, and it was learned that the inhalation of some of them would produce stimulation and intoxication, but no practical use was made of that fact.

"J. Marion Sims relates the story which shows that the discovery of inhaling anesthesia really had its origin in the pranks of some college students in South Carolina in 1839. A number of half grown boys were diverting themselves by inhaling ether. Becoming intoxicated they seized a negro who was watching their antics and compelled him to take the drug by holding a saturated handkerchief over his nose.

"At first his struggles were amusing, but soon he became unconscious and his condition caused great alarm. After a short time, he recovered and was none the worse for his experience. Three years later one of the participants of the affair became the pupil of Dr. Crawford W. Long, of Georgia.

"He called Dr. Long's attention to the effect of ether and they began to experiment on each other. In March 1842, Long persuaded a patient, on whom he was about to operate for a small tumor, to inhale ether and the operation was completed without pain.

"The records on his ledger read: 'James M. 3842. Ether and Excised tumor \$2.00. During that year, he did four other operations in

the same way, and repeatedly used ether as an anesthetic in 1843 and 1845. His work was known and discussed by neighboring physicians, but was not published, hence the dispute which subsequently arose as to his right to the priority in the discovery of anesthesia.

"In 1844, Dr. G. Q. Colton, gave a lecture at Hartford, Conn., on nitrous oxide gas. A dentist named Horace Wells was present and immediately saw the possibility of using it as an anesthetic. The next day he induced Dr. Colton to give him gas and while under its influence he had a tooth extracted. On regaining consciousness, his first words were 'This is a new era in toothpulling.' He gave nitrous oxide successfully to several of his patients and shortly afterwards went to Boston to give a demonstration at the Massachusetts general hospital. For some reason, it was not a success and he was denounced as an impostor. Later, his mind became deranged and at the age of 32, he committed suicide while confined in a New York jail.

"In 1846 W. G. T. Morton, a dentist and former partner of Wells, he ban to investigate various narcotics in an effort to find a better agent than nitrous oxide to produce anesthesia. At the suggestion of Charles T. Jackson, a chemist, he experimented with sulphuric ether. He inhaled it personally and lost consciousness for seven minutes.

"He then gave it to several patients and extracted teeth without pain. He finally went to the celebrated Dr. John C. Warren, and obtained permission to try the anesthetic at the Massachusetts General Hospital. On October 16, 1846, Morton in the presence of a large number of physicians gave ether to a patient who was operated on by Dr. Warren.

"The demonstration was a complete success and caused great interest and enthusiasm. Morton for a time refused to disclose the nature of the agent he used. He called it 'Lethon' and disguised its color and odor by the addition of dyes and aromatics. He offered to go into partnership with Jackson who shared his secret, to put it on the market as a patent medicine. Finally, becoming convinced that the medical profession would not use the agent unless they knew its composition, he announced the fact that it was simply sulphuric ether.

"Oliver Wendell Holmes coined the word anesthesia for the condition, and anesthetic for the agent, both of which are now in universal use throughout the world. The work of Long was either unknown or ignored and a dispute shortly arose between the friends of Morton and Jackson as to which was entitled to the credit of the great discovery.

"When their final claims were presented to Dr. Holmes for settlement, he proposed as a compromise that a monument be erected to 'painless surgery' with a statue of Jackson on one side and Morton on the other and the inscription to 'Ether.' Morton spent his life in contentions and disputes and died at the age of forty-nine, broken hearted and bankrupt. Jackson, like Wells, became insane and died in an asylum in 1880.

"The use of ether as an anesthetic

was immediately taken up in Great Britain and on the continent. Sir James Y. Simpson, of Edinburgh, was the first to employ it to relieve the pains of child birth. Owing to the fact that ether had a disagreeable and persistent odor and also because of several deaths reported due to its use, Simpson began to search for a new and better agent. Owing to the fact that ether had a disagreeable and persistent odor and also because of several deaths reported due to its use, Simpson began to search for a new and better agent. Owing to the fact that ether had a disagreeable and persistent odor and also because of several deaths reported due to its use, Simpson began to search for a new and better agent.

FIGURES FOR JANUARY
ON LOCAL MARKET

Sales of leaf tobacco on the Danville warehouse floors during the month of January totaled over two and a half million pounds, according to figures submitted by the Danville Tobacco Association yesterday. The number of pounds sold was 2,652,699 for \$788,491.52 or at an average price of \$31.50 per hundred pounds. Sales for the season are brought by the foregoing figures to 24,722,558 pounds sold for \$7,846,649.11, the average price for the season being \$31.71.

ARITHMETIC IN
DAIRY FARMING

(By The Associated Press)
ST LOUIS MO., Feb. 2.—Boy inmates at Bellefontaine Farm, the municipal industrial school, who are studying dairy farming are taught arithmetic by milking cows. Instead of problems about discounts and invoices, the boys are required to figure in detail the amount of money earned by each cow in his care. The cost of grains, silage, hay and beet pulp which he has fed the cow is balanced against the value, at wholesale prices of the milk, which each animal produces.

Here's a popular way to serve
Kellogg's Bran—greatest health food!

Most every one who realizes how effective Kellogg's Bran is for the permanent relief of constipation has their own particular way of serving this wonderful cereal. Most families eat it as a cereal with milk or cream. Others sprinkle it on their favorite hot or cold cereal. Every one enjoys its nut-like flavor!

If you are cooking a hot cereal try this method:—Measure out two tablespoons for each member of the family. Mix it with the cereal and cook as you always cook the cereal.

Kellogg's Bran is scientifically prepared and ready to eat, but its regular powers are in no way impaired if you cook it with other cereals.

Kellogg's Bran has won the friendly recommendation of physicians because it does give prompt and permanent

Gets Note To
Leave Town

RICHMOND, Va., Feb. 1.—M. Sullivan of Fredericksburg, who lives over the store of Solly Ventura, one of the men who received a "kick" note to sell out his business and leave Fredericksburg, has received a note in which he is told to vacate the premises over the store of Ventura. Sullivan is a native born American, a quiet man and he and the officers of the city are puzzled over the receipt of the notice. Ventura was told that if he did not vacate by July 1 and leave the city he would be blown out or burned out.

Austria Returns Stolen Trophies

(By The Associated Press)
VIENNA, Feb. 2.—The crown, the scepter, the seal of state, the marshal's baton and the mantle, all used by Napoleon I at his coronation at Milan on May 26, 1806, have been surrendered by Austria to Italy in accordance with a clause of the treaty of St. Germain. The house of Hapsburg became possessed of these trophies in Italy and carried them off to Vienna in 1848, since when their return has more than once been urged by Italy, but without success.

Of the gold- and jewel-encrusted crown and scepter, which were used by Napoleon I at his coronation at Milan on May 26, 1806, have been surrendered by Austria to Italy in accordance with a clause of the treaty of St. Germain. The house of Hapsburg became possessed of these trophies in Italy and carried them off to Vienna in 1848, since when their return has more than once been urged by Italy, but without success.

SIMS ASSAILS THOSE WHO WEAR MASKS
(By The Associated Press)
BOSTON, Feb. 2.—The Ku Klux Klan and Sinn Féin sympathies were equally condemned by Rear Admiral W. S. Sims, retired in an address to the Local Council last night. He advocated that the wearing of masks be a criminal offense suggesting an "open season" against masked men and that a bounty be paid for their capture as was paid for wolves.

\$100 Reward Is Offered For Man Who Seized Girl

Mayor Harry Wooding today authorized the payment of a reward of one hundred dollars for information leading to the arrest and conviction of the unknown man who last Sunday night attacked Miss Iola Payne while she was on her way home from Miffett Memorial Baptist church to her home in North Danville. The alleged attack took place on Wyllie avenue.

Police have been working systematically on the case ever since it was reported but they do not disguise the difficulty under which they are laboring as a result of the slight description of the man. Miss Payne was so terrified by the attack which took place when she was alone that only the barest details of the man have been given and she was unable to give a comprehensive description. By offering a reward, the mayor hopes that new interest will be aroused in bringing to book the perpetrator of the outrage.

MICHIGAN'S WINNING STREAK UNEQUALED IN FOOTBALL

A GREAT deal has been said concerning the record hung up by Penn State on the gridiron in the last three seasons, during which time the Nittany Lions played 30 consecutive games without once meeting defeat. Of this number 25 were victories and five ended in the scores. But as good as was the mark established by the Red-licked eleven, it doesn't begin to compare with the sensational run of straight triumphs made by Michigan when Tom first took charge of football duties at the Ann Arbor institution. Over a stretch of almost five campaigns, or from 1901 to 1905, to be exact, the Wolverines played 56 contests, winning 55 and tying one. Not a defeat was chalked up against the maize and blue during the stellar march.

And the Tommen weren't meeting weak units either in fact the best teams that the middle west could produce in those days were encountered, including Chicago, Minnesota, Wisconsin, Ohio State, Northwestern, Indiana, Iowa, Notre Dame, Calisile Indians as well as West Virginia and Leland Stanford.

Had Tom's Winning Streak. Not only did the Michiganders go through 56 contests without losing a game but in that number of games they won 40 points were scored by the maize and blue in only one battle did the opposition count more than a single touchdown. Chicago accomplishing the feat in 1904 when Eckersall twice ran away for long canters, giving his team 12 points or the biggest total made on the Wolverines in those 56 games.

In 1901 on the first year Tom was at Michigan the Ann Arborites defeated 550 points to nothing for 13 for; the next season Case and Vinnies each tallied six points as did the Gophers in 1903. In 1904 22 markers were accrued, with Chicago getting 12 of them.

In 1905, Michigan went through to the final fray of the campaign without being scored upon. But then the break came for in the Thanksgiving Day game at Chicago the Wolverines went down to their first defeat when the Maroons edged the Michigan eleven, 2 to 0, an ivory play by Denny Clark resulting in a safety, giving Chicago a game which should have terminated in a scoreless tie.

Stupid Play Proves Costly. In that fracas Clark pulled a "home by foolishly attempting to run out one of Eckersall's long puns from behind the Michigan goal line, only to be thrown back by a couple of Ma-

HOLDING POST

joon tacklers for a safety. Had Clark's misplay tell on the leather the way would have gone as a touchdown and Michigan's wonderful record would no doubt have been appreciable extended. But even so Michigan's test of playing 56 straight games without meeting defeat perhaps ranks unparalleled in the history of the college sport.

To go even further the Wolverines from 1901 to 1910 inclusive played some 56 contests, and were beaten on but six occasions. Certainly a real record to shoot at.

D. M. L. V. REIDSVILLE. The D. M. L. basketball team will play the Reidsville quint at Reidsville tonight. D. M. L. and Reidsville have played one game in Danville the North Carolina team winning by a narrow margin. The game tonight is expected to be interesting.

BASKETBALL RESULTS. At Lexington Washington and Lee 29 Virginia 16. At Richmond Kings College 20, Raleigh Athletic Club 40. At Richmond Woodrow Wilson High School Portsmouth 19, John Starshall School 16.

For the Game's Sake

By LAWRENCE PERRY. (Special to The Bee). NEW YORK, Feb. 1.—Upon excellent authority it may be stated that Dean Briggs of Harvard had no thought of attacking the Yale-Harvard-Princeton agreement in his report to President Lowell on Harvard sports. The thought he put forward was an ideal condition whereby agreement of the sort would not be necessary. He did not propose it's abrogation. Dean Briggs knows as well as any one that the Millennium has not arrived in College Athletics.

The fact that the United States Golf Association is far from satisfied with the rate at which Clubs of the country have been joining themselves with the Parent-Body will appeal to those who have studied the situation as a perfectly logical state of mind. Last year saw an increase in membership of clubs, bringing the total number of Golf Clubs affiliated with the Association up to 584.

SEMI-FINALS IN TENNIS DOUBLES PRODUCE UPSET

(By The Associated Press). NEW YORK, Feb. 1.—The semi-finals invitation tennis doubles produced an upset today when Miss Leslie Bancroft and Miss B. E. Cole of the Longwood Cricket Club, were defeated by the Metropolitan winners, Miss Lull in Schalmann and Miss Ceres, 6-4, 3-6, 6-2. The volleying of Miss Baker and the fine overlanders of Miss Scharmann accounted for the victory.

Miss Marie Wagner of New York, and Miss Carl V. Hitchens, Mexican champion won the other place in the final round defeating Miss S. F. Weaver and Miss Deforest Candee of New York and Hempstead, 6-0, 6-0.

Miss Bancroft won easily in the first of the semi-finals singles matches, by defeating Miss Wagner 6-1, 6-3. Her winning strokes were fast dives into deep court and an occasional volley into the corners.

In the semi-final round of the doubles Miss Weaver and Miss Candee won their place in the open bracket by defeating Miss Rawson and Miss Wood and Mrs. David C. Mills, York and Orange, N. J. 6-4, 8-6. Miss Viola Mallory, national title holder, will be opposed tomorrow by Miss Scharmann in the second of the semi-final matches. The match was postponed from yesterday because Mrs. Mallory was suffering from a cold.

COBB'S LIFE-TIME BATTING MARK 417 MOST REMARKABLE FEAT

Ty Cobb with a life-time batting average of .472 leads all players of the world in this respect. Cobb's mark will undoubtedly live for many years—probably forever. It will be a long time before the game produces another player with the batting eye of Cobb. While it isn't generally known, Pete Browning was the holder of life-time averages until Cobb appeared on the scene.

While with the Louisville club from 1882 until 1893, Browning led all basemen with a .516 life-time average. This mark stood for 23 years.

It took Cobb 10 years to bring his mark up to the average set by the old-time slugger. Since 1915 Cobb has gradually increased the lead. The greatest of Cobb's feat is made evidently by the fact that Rogers Hornsby, the premier slugger of the National League, has an average of only .347 covering his eight years. Selser is Cobb's closest opponent with a mark of .360 covering his major league career.

TEDDY THIRD IS PRIZE HORSEMAN

They are Roosevelt, third, grandson of the former president, and his son, Mr. L. E. received a cup and blue ribbon in the Shetland pony class at the Washington Riding and Hunt Club Junior Horse show.

FATHER AND SON WIN PRIZES

Tom Pom Honey (right) and Daisy Jim (left), father and son, shown here in the arms of Mme Marie Cruise, their mistress, won first prizes at the dog show of the Pomeranian Club of America, New York.

In the Sport World

BY WALTER CAMP (Copyright, 1922, By The Bee)

NEW YORK, Feb. 2.—Those who remember the remarkable finish of Abrams against Gourdin in the Oxford-Cambridge-Yale-Harvard contests last year, when many thought someone other than the Harvard runner on the tape will be particularly interested in the formal announcement made today that this Cambridge runner, now captain of the team will be one of the representatives this year.

Miligan of Cambridge will also be available as well as Melmus of the British team two years ago, who is running splendidly in the Cross Country and should be particularly dangerous on either two or three miles. Milligan, A. Reese and Grove, as well as Probably Stallard will be in Oxford will also have the assistance of Stevenson, the old Princeton track captain in the quarter mile, and Huhn, the Princeton hurdler. Degan may take part in the short put.

Keene Fitzpatrick, as a veteran, took the mantle as it fell from Mike Murphy's shoulders in more senses than one. Mike began his career at New Haven and Keene was there shortly after. Then Mike went to Pennsylvania and Keene went to Michigan where he became one of the most loved characters on the campus. Later he went to Princeton, where his work flowered into its greatest results and he has just been most honorably and appropriately recognized by the authorities there, who have by action of the Princeton trustees made Fitzpatrick adviser in Athletics at the University, with a position in the faculty.

The announcement reads: "The board of trustees has long had a deep appreciation of the valuable services of Mr. Keene Fitzpatrick to the Athletic Association and to the University during his thirteen years at Princeton. The board places high value on Mr. Fitzpatrick's judgment in Athletic matters, as well as upon the fine tone which his character and personality exert on the many students with whom he comes into contact."

DUTCH ARNZEN CHALLENGES ANY WRESTLER

Dutch Arnzen, formerly stage manager of the Majestic Theatre, has gone in for wrestling. He formerly took an active interest in wrestling and boxing and became in the past. Some years ago he defeated some of the best boxers and wrestlers in the country. And now he issues the following challenge. Sporting Editor, The Register. Dear Sir: I challenge any man in Danville that weighs 130 pounds to a wrestling bout at the Municipal Hall Friday night, preliminary to Stecker-Gardini bout. "DUTCH ARNZEN".

RICKARD DROPS OUT AS BIDDER

(By The Associated Press). NEW YORK, Feb. 1.—A series of unexpected developments today brought the heavyweight boxing situation back into the limelight after a lapse of several days, but failed materially to increase prospects of a title bout for Champion Jack Dempsey.

The net result of these developments, which included withdrawal of Tex Rickard from the field of bidders for a championship contest and a new offer from Tom O'Rourke, Polo Grounds match maker for two fights this summer was to diminish for the present at least, chances of a return match for Jess Willard, formerly heavy weight king.

Willard ascribed his refusal to bid to lack of public support for any title match but an indication that he has not abandoned altogether his plans for a Willard-Dempsey contest was seen in the announcement that Willard would undertake a country-wide exhibition tour to demonstrate his fitness for another crack at the title.

Willard's tour will start at Portland, Maine, February 19 and take him through the east, middle west, and south during the next two or three months. He may accept matches during his progress with one or two heavyweight contenders to convince the public of his right to a return title contest.

GIANTS BUY JACK BENTLEY

(By The Associated Press). NEW YORK, Feb. 1.—Jack Bentley outfielder pitcher and home run hitter purchased for \$75,000 by the New York Giants from Baltimore, today accepted salary terms with the world's champions for 1923. This announcement was made by the Giants in denying reports that Bentley was a hold-out. His signed contract is expected in a few days.

The signed contracts of four other players reached the Giants today. They were centerfielder Jimmy O'Connell, another \$75,000 star, acquired from San Francisco, Bill Cunningham, who alternated in centerfield with Casey Stengel last year, Fred Johnson pitcher, obtained San Antonio and Travis Jackson, shortstop acquired from Little Rock, Arkansas.

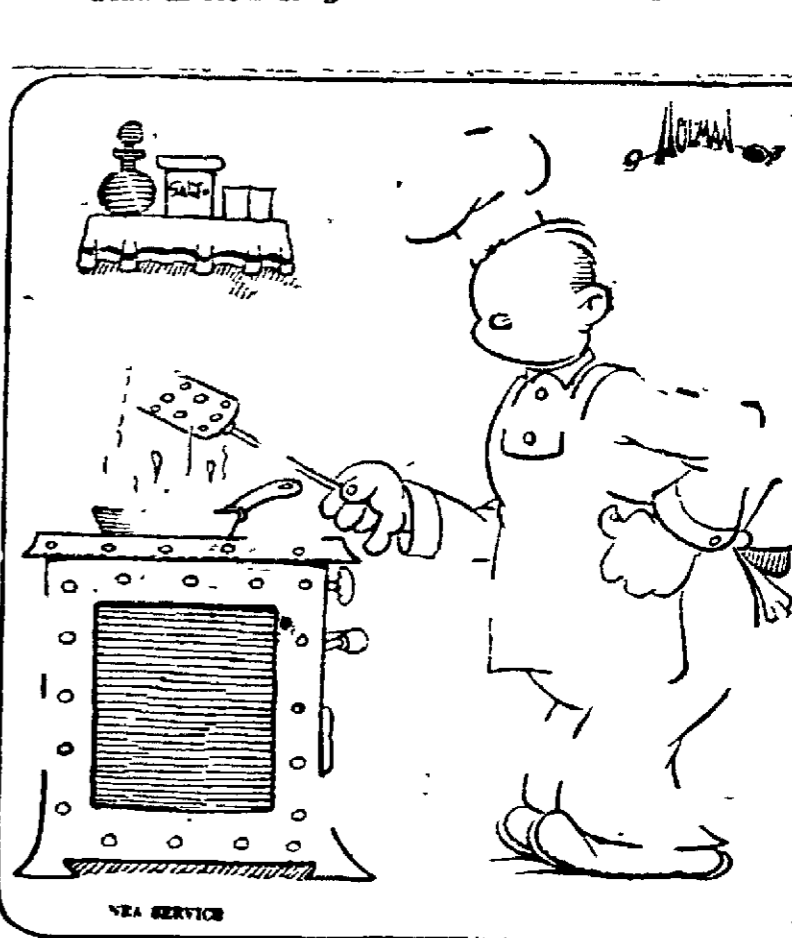

YANKS RELEASE TWO PLAYERS

(By The Associated Press). NEW YORK, Feb. 1.—The New York Yankees today released two players to Southern Association clubs. A pitcher was sent to Atlanta, under an option agreement, while Ed Neusel an outfielder was released outright to Nashville. Contracts were mailed by the Yankees to 28 players including all of last year's regulars, except Edd Ruth and Carl Mays, both of whom have hold-over contracts for 1923.

Blind Student Winning Honors

(By The Associated Press)
CHICAGO, Feb. 1.—A blind student has surpassed all previous achievements in the way of winning honors at the Northwestern University Law School.

George H. Weinman of Chicago, although since early last year has been blind, has won the only scholarship at the disposal of the law school faculty for 1922-23, the only scholarship at the disposal of the law school faculty for 1922-23, the only scholarship at the disposal of the law school faculty for 1922-23.

"At no prior time in the history of the Law School have these honors been bestowed upon the same individual in one year," Dean John H. Wigmore, of the school announces.

Weinman is now in his junior year and attributes his success to his mother. He says: "Like Abraham Lincoln I most sincerely believe that whatever I am, or ever hope to be, owes to my darling mother."

"She leads all my work—law books, law lessons and technical legal statements—for me and I brief the cases just as other students do. I have developed a fairly good memory and as a rule, am able to get the substance of a legal article after one reading. In short, my mother performs the functions of eye-sight for me."

Weinman is 23 years old and was taught the system of raised type reading in the Chicago public schools. "Some day," Weinman said, "I may be dreaming of sitting on the bench of the Supreme Court of the United States, but right now I shall be satisfied if I pass the Illinois bar examination."

Estate Of Dr. Dame Willed To His Sons

BALTIMORE, Jan. 21.—Nearly all the property of the Rev. Dr. William Meade Dame, pastor of Memorial Protestant Episcopal Church, was left to his three sons by his will probated yesterday in the Orphans' Court. As his daughter, Elizabeth, wife of Edward A. Merritt, was sufficiently provided for, Dr. Dame, the will stated, did not think she should share in the residue of the estate.

"In token of my devoted love and affectionate remembrance," the will went on, "I give her the service of a will given her mother and me on the twenty-fifth anniversary of my rectorship of my present parish."

Mrs. Merritt is also to have any piece of furniture in her father's home which she may desire.

Dr. Dame's sons, the Rev. William Page Dame and Randolph Nelson Dame, were each given one-third of the residue of the estate.

The remaining third is to be held in trust by the Mercantile Trust and Deposit Company for Dr. Dame's other son, George William Dame, who is to be paid the net income for life. In its discretion the trustee may use the net income for the son's maintenance.

Upon his death the principal is to be divided among his children or if he leaves no children his widow is to be paid the net income for life. In the event that he is not survived by a child or widow his two brothers are to get the principal of the trust fund.

Letters on the estate were granted to the Mercantile Trust and Deposit Company, and the Rev. William Page Dame, the latter without bond. The trust company gave bond for \$10,000, the estimated value of Dr. Dame's personality.

The will was executed October 14, 1922, being witnessed by Joseph Packard and A. Morris Tyson, Dr. Dame's son-in-law.

The will was executed October 14, 1922, being witnessed by Joseph Packard and A. Morris Tyson, Dr. Dame's son-in-law.

Use Of Checks Boost the Pound

(By The Associated Press)
LONDON, Feb. 1.—The English are beginning to believe their habit of using checks more and more, and cash less, to pay their way through life has been one of the factors in the recent upturn of the pound in its race to catch up with the dollar. Of course, it has not reached the point where people write checks indifferently, just as a matter of national

pride, but all the newspapers have been giving serious consideration to the thought that the check-writing habit, ever becoming more common, has helped improve the financial situation.

The idea appeared in print the other day when the London Bankers' Clearing House announced that of the sums now paid into city banks, only seven-tenths of one per cent. come in currency and coin, all the rest being transfers of credit by check. Not many ago the percentage of each deposit was several times higher than today.

It has been pointed out frequently of late that the use of checks instead of cash allows banks usefully to employ perhaps larger sums than otherwise might be possible in piling new money upon the nation's economic structure.

The English, so their newspaper says, are more given to the check habit than other people, and this despite the fact that each check is taxed at two pence. A check-book cannot be had for the asking, as in America. It must be bought and paid for. Even housewives make general use of checks when they go to market, and as many of the large banks have hundreds of branches, there is usually

a bank within walking distance of the home. The high fees for postal money orders make it cheaper to remit by check for amounts over one pound, and this too, has encouraged the check habit.

Psychologically, some observers question whether the habit is a good one from the standpoint of thrift, since many people who would think twice before spending a certain sum out of their pockets do not hesitate to write a check for the amount: just as it often seems easier to tell a store clerk to charge a purchase to one's account than it is to shell out the actual coin. But others contend that

the increasing bank clearings—they amounted to more than 37,000,000,000 pounds, sterling in London alone last year—show not only economic betterment, but also that the average Englishman has preserved his own honesty as well as his belief in the honesty of his countrymen.

TONNAGE OF FREIGHT IS EXCEEDINGLY HEAVY

(BY GUY T. ROCKWELL)
CLEVELAND, Feb. 1.—Industrial operation in many northern Ohio plants are being retarded because of the inability of the railroads to

move the record tonnage of freight thrust upon them. The carriers are now moving a record volume of business, but requirements surpass their present capacity.

There is a moderate fuel shortage, and steel plants have been unable to speed up much because of this fact.

FURNITURE

SEATTLE, Feb. 1.—Many of the larger department stores and furniture dealers in the Pacific Northwest are in eastern markets to select goods for immediate and spring delivery.

PATTERSON'S GARDEN COURT CELEBRATION

SALE BEGINS SATURDAY, FEB. 3

Sale Ends Saturday, Feb. 10, Inclusive

The advertisement contains news of unusual value to all Patterson Patrons.

PATTERSON'S GARDEN COURT CELEBRATION

Free!

A 50c Tube of Mag-lac Tooth Paste

or a 50c Tube of

Colonial Club Shaving Cream

With a Purchase of a

Garden Court Toilet Article

at 50c or more

Sale Begins Saturday, Feb. 3rd—Ends
Saturday, Feb. 10th Inclusive

From Feb. 3rd to Feb. 10th inclusive we will stage our second Garden Court celebration, giving a full size 50c tube of Mag-lac Tooth Paste or a 50c tube of Colonial Club Shaving Cream to every purchaser of a Garden Court Toilet Article at 50c or more. The manufacturers will permit us to allow two such offers to each customer providing different Garden Court Articles are purchased. We plan to make this the biggest value giving celebration we've ever staged—an event of unusual importance. Thousands will come for these exquisite toilet preparations and to receive their 50c tube of Mag-lac Tooth Paste or Colonial Club Shaving Cream.

COMPACT FACE POWDER: Small, 50c; Large, \$1.00; Double, \$1.50.
GARDEN COURT TOILET WATER.

Although not as concentrated as the perfume, Garden Court Toilet Water still maintains a high degree of the wonderful Garden Court odor. It is irresistible in its delicacy. Price \$1.50.

GARDEN COURT ROUGE.
Garden Court Rouge gives the natural bloom to the cheeks. It comes in three shades, and is the preference of discriminating women. Price 50c.

Colonial Club Shaving Cream produces an abundant, rich, creamy, non-drying lather that men like so well—it contains a hair softening ingredient that makes shaving easy and yet it leaves the face soft, cool and refreshed. Get a big 50c tube free by purchasing 50c worth of Garden Court.

Prominent dentists agree that Milk of Magnesia should be used on the teeth with regularity—Mag-lac Tooth Paste, however, makes this unnecessary because it contains magnesia in the proper form and its daily use will give to the teeth the required amount. It is most delightful to use and is a positive remedy for "acid mouth." Get a full sized 50c tube of Mag-lac Tooth Paste free with your 50c purchase of Garden Court.

The Garden Court toilet articles are the masterpiece of a world's Master Perfumer. The essentials of the well groomed woman's complexion are depth, wholesomeness and utter absence of artificial appearance. The regular use of the Garden Court toiletries will give your complexion a more transparent loveliness.

GARDEN COURT TOILETRIES

GARDEN COURT DOUBLE COMBINATION CREAM.

Garden Court Double Combination Cream is a combination, vanishing, massage and night cream. You will like it. It makes an ideal base for face powder. Price 50c.

GARDEN COURT TALCUM.

Made from pure Italian Talc and prepared with soothing ingredients, Garden Court Talcum gives relief quickly to chafed skin, is a splendid deodorant and an antiseptic. Men prefer it for after shaving to any other. Price 25c & 50c.

GARDEN COURT BENZOIN AND ALMOND CREAM.

You will find Garden Court Benzoine and Almond Cream one of the very best for chapped hands and face—it soothes and heals the rough and broken skin. It is an excellent lotion after shaving. Price 50c.

GARDEN COURT FACE POWDER.

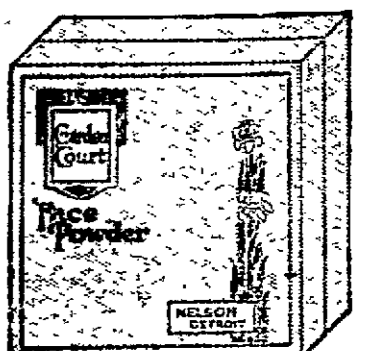

The Garden Court Face Powder is invisible in the complexion by virtue of its fineness, and it stays on until you take it off. This exquisite powder gives a healthy bloom to the texture of the skin. Price 50c and \$1.00.

GARDEN COURT COLD CREAM.

A pure complexion can only result from a skin kept perfectly clean. Garden Court Cold Cream cleanses quickly and thoroughly, removing every trace of dirt and impurities. Price 50c.

GARDEN COURT EXTRACT

The Garden Court Perfume is the odor of the flower gardens of the world. It is a bouquet of thirty-two essences, perfectly blended to make this the most subtly fragrant and delightful of all perfumes. It is one to identify with your personality. 1-2 oz. 50c; 1 oz. \$1.50; 1 oz. in gift box \$2.00.

Remember—We personally guarantee that you will like any Garden Court Preparation you may purchase on this sale as well if not better than any similar preparation made.

Charm School To Teach Maids How To Be Nice

CHICAGO, Feb. 1.—The American people are atrocious eaters. They eat with their eyebrows as well as their jaws. They "duck" to meet the brimming fork and gulp, gobble and grab. It must stop.
With personality developed, a girl lacking in beauty can accomplish 100 per cent, more than can she who is only good to look upon.
Such are the convictions of Miss Irene A. Skinner, director of the "Charm School," which the Chicago Y. W. C. A. opened recently. Ninety-nine of each 100 applying for tuition, said Miss Skinner, are actuated by self-consciousness. Girls fretting over the rudeness and vulgarity of the "flapper," are fearful of losing

WADDILL-HOLLAND CO. Inc.

NEW ORLEANS, Feb. 1.—The public has been backward in buying high priced shoes here this month. This is attributed to a feeling that shoe prices have been much too high for the better grades. Medium priced shoes at from \$6 to \$8 a pair are in good demand. There is little call for the very cheap grades.

"ORDER PUBLICATION"

Issued by order of the Clerk of the Corporation Court of Danville, entered on the 25th day of January, 1923. VIRGINIA.

In the Clerk's Office of the Corporation Court of Danville, on the 1st day of February, 1923.

Jose Henderson Owen, Plaintiff against William Lee Owen, Defendant.

IN CHANCERY.

The object of this suit is to obtain from the said Court a decree divorcing the plaintiff, Jose Henderson Owen, a vinculo matrimonii from the said defendant, William Lee Owen, on the grounds of adultery.

And an affidavit having been made and duly filed that the said defendant William Lee Owen, is a non-resident of the State of Virginia, it is therefore ordered that he do appear here within ten days after due publication of this order once a week for four successive weeks in the City of Danville, Virginia, and do what is necessary to protect his interest in this suit.

A Copy Teste—JNO. R. COOK, Clerk.

ORDER PUBLICATION.

VIRGINIA.

In the Clerk's Office of the Corporation Court of Danville, on the 19th day of January, 1923.

W. R. Mitchell, Jr., Plaintiff against R. T. Jackson, principal defendant, Commercial Bank of Danville, Va., co-defendant.

PETITION AND ATTACHMENT.

The object of this petition and attachment is to recover from the principal defendant, R. T. Jackson, the sum of \$125.00 with interest thereon from the day of 19—, 19—, till paid, due to the plaintiff from the said principal defendant, R. T. Jackson, said principal defendant upon affidavit that he is a non-resident of this State, and has estate or debts owing to him within the City of Danville, Va., and the said attachment having been served on the co-defendant, the Commercial Bank of Danville, Va., whom it is alleged, has in its hands estate or effects belonging to the said principal defendant, R. T. Jackson.

And the said principal defendant, R. T. Jackson, not having been served with a copy of said attachment or summoned to answer the same, it is therefore ordered that he do appear here within ten days after due publication of this order once a week for four successive weeks in the City of Danville, Va., and do what is necessary to protect his interest in said petition and attachment.

A copy—Teste, JNO. R. COOK, Clerk.

Give Railroads Chance Is Plea Of W. B. Stacy

KANSAS CITY, Mo., Feb. 1.—Give the railroad a chance, let them earn a fair return on their investment and then let them alone, are the three cardinal points emphasized by William B. Stacy, president of the Atchison, Topeka and Santa Fe Railroad, in telling the Kansas City Chamber of Commerce members here tonight how to overcome the ill that are interfering with the prosperity of the country.

Mr. Stacy blamed high labor costs as being responsible for the present condition of the farmer and attributed high labor costs to the restrictive immigration laws and a high tariff wall.

"The railroads are not healthy. They have too many doctors and too much medicine," said Mr. Stacy. "First came the United States government with the Interstate Commerce Commission. Then came the state commissions, and gradually the medicine applied became stronger and stronger. Finally when the war came the railroads were unable to function properly. Instead of thanking the medicine, the government seized the roads."

"Government control raised costs, depressed the efficiency, and, worse, injured the roads. But it convinced the people that they wanted no government ownership and it led to the enactment of the Esch-Cummings bill, the Transportation Act 1920. This law was the first really constructive measure attempted."

"It recognized, first, that credit is absolutely necessary to the roads. This credit had been gradually undermined during the long period of deteriorating when the enormous business need for credit in transportation manifested itself, the railroads had not enough equipment. They were short of everything that goes to make up a complete railroad."

"The only cure is credit. Establish the ability of the road to pay interest on the money invested and the money necessary will flow toward the roads. The Transportation Act attempted to meet this situation and when it met the rate increase in 1920 but their figures were based on a certain volume of business. Unfortunately, the slump of 1921 came on, the volume was not there, and the roads earned that year a net of 3.7 per cent on their valuation. Even the business of the country had started on the upgrade when the Interstate Commerce Commission, acting under political pressure, made a horizontal reduction of 10 per cent. The result has been that in 1922 the railroads have been unable to earn over 4.2 per cent. This reduction checked railroad buying; it retarded railroad spending."

"We feel, however, that if the prospects for 1923 are fulfilled, we stand a chance of earning a fair return. But we are certain that if the many nostrums that are now proposed are administered we shall be in a worse condition at the end of the year."

"To show you what these cure pills consist of, I might cite the bill by Mr. Gooding of Idaho to reduce all freight rates on agricultural products 33 per cent; Senator Johnson's bill to prevent dividends until the necessary cars are provided; Senator Brookhart's opinion that seven or eight billion dollars should be squeezed from the valuation of the railroads; the American Farm Bureau demand that all guarantees be taken out of the Act; there are in reality no guarantees."

"The farmer is demanding lower freight rates and Senator Capper is backing him up in this demand. Senator Capper has made statements on the floor of the United States Senate which he cannot substantiate."

"One of these things will help restore the credit of the railroads."

"The president of the United States advocates making the question of wages a function of the Interstate Commerce Commission. Gentlemen, the Interstate Commerce Commission has more than it can attend to now. Don't give it any more."

"The first importance, however, is the necessity for credit. If we can get money, we can supply you with the best kind of transportation and with the best service. Rates cannot be raised or lowered until we have the money to do so. The rates will not help. The farmer is having a hard time. He should have help, but banking the railroads will not help him and reduced rates mean just now bankruptcy for the roads."

"If you can get lower labor costs, you can reduce the price of steel, of lumber, of cement, of cars, of locomotives, of everything that enters into the operation of either the farmer or the railroad. And, as long as we have the restrictive immigration law in effect and a high tariff wall about us, just so long must labor costs stay up. If the country wants these things, it must be content to let business on the high price scale at which we are now doing it. But the farmer should be taught this and he should decide what he wants. High labor costs are responsible for the present condition of the farmer, and let the railroads."

Triplets Born At Sea Regarded As Immigrants

(By Robert Tompkins)
WASHINGTON, Feb. 1.—When a Greek woman who sailed as one immigrant against the quota of her country, arrived in New York recently with three children—triplets born on the way over—the immigration authorities at New York were compelled to count her as four persons, and, if the quota for Greece had been within one or two of completion, either a few of the triplets or some of the grown-ups on the steamer Orca would have been compelled to go back.

If the three children had been within the three mile limit however, they would have been American citizens and entitled to free entry without regard to such complex things as quotas. So it is seen that the three mile limit has other purposes than keeping deep sea bootleggers a respectable distance from the coast.

Women immigrants always are a problem to the Federal authorities. A hundred cases a day, sometimes twice as many, are handled by assistant secretary of labor White, whose office was created a short time ago because there weren't enough officials to handle the heavy immigration business.

"We have to send back hundreds of mothers to the country from which they sailed," said Mr. White today. "The law is mandatory. We have no choice. When the quota of a country is exhausted, the overflow must go back."

"A child born at sea takes the nationality of its mother, unless birth occurs within the three mile limit. Then, of course, the child is an American citizen, even tho its mother has never set foot on American soil. We can't legally deport such a child, but we can deport the mother. We have to do so and we obey the law."

"What becomes of the child?" "The child is sent back, too. The policy of the department is not to separate families if it can be avoided."

Then when the government deports such a child it is deporting an American citizen. Technically, yes," Mr. White replied. "But no order is signed in the case of the child. The mother simply takes it back. No mother has ever refused to take back a child born within the three mile limit."

"These children perhaps never know that they had the right to claim American citizenship."

"Scores of children are born at Ellis Island and other detention stations every year. The third class quarters of a heavily laden incoming immigration steamer always resemble maternity wards of a hospital."

In every case of a child born at sea an effort is made by the government to admit the child to the country. Often temporary permits are issued and after extended. Children born at sea however, count as much against the quota of their country as an adult. There have been seven cases of adults turned back in order to admit her newborns—much of the disgust, of course, of the grownup."

The woman with the triplets was an unusual case, but so far as the authorities here are advised, the mother and children are doing well.

NEGRO DIES OF WOUND

Floyd Oden, colored, died Wednesday afternoon at 4 o'clock at the Providence hospital from a gunshot wound inflicted Sunday morning by his wife, Julia, following a quarrel which started at the night before. The negro, who has been in jail since the shooting, is now being held on a charge of murder. The killing is said to have been cold-blooded in some respects as the woman is alleged to have shot her husband as he was leaving the house to keep from hearing her quarrel. The shooting occurred on the porch of their home near the city, the load of shot entering Oden's back on the left side, penetrating the lung.

DETROIT EXPOSITION TO GIVE WAY TO BIG SHOW PHILADELPHIA PLANNING

DETROIT, Feb. 1.—Detройters have abandoned plans for holding the international Peace Jubilee and Waterways Exposition here. It is announced. It will be held in Philadelphia as that city's sequel to the 1926 exposition.

It was at first understood that Philadelphia had foregone its exposition in favor of that to be held here. Since then, however, Philadelphia has announced itself able to stage a month-long exposition, and inasmuch as that city was first in the field it was decided to give way to Philadelphia.

The Philadelphia Exposition will be held in 1926.

Sleeping?

Dorothy Clark, dancer, above, frequently closed her eyes like this in a Los Angeles court as her suit against Herbert Rawlinson, firm star, for \$200,000 on the ground he wronged her six years ago, was in progress.

U. S. Representative From Kansas,
Second District

One of them, the son of a Civil War veteran, finally remarked: "Well, I don't care so much for this kind of life. My dad was in the Civil War and he knows all about this business. I guess it would have been better if he had come and I had stayed at home."

Fights Deportation

James Dale, English actor appearing in "Loyalties," is fighting deportation charges of authorities who say he brought Ada Gladys Powell (above) to this country from England illegally.

LOCAL CLERGY TO REPORT ON SHADY PLAYS

(By The Associated Press)

BALTIMORE, Md., Feb. 1.—Three local clergymen, chosen by the ministerial union of Baltimore and representing 500 Protestant Churches, will in the future, study theatrical presentations here and report "immoral plays" to the proper authorities with a petition for their discontinuance. Dr. George W. Haddaway, who is chairman of the committee said today that, although he has heard of plays presented here that were not quite up to the standard, he is entirely ignorant of the theatrical situation. He added, however, that he intends to go into the matter thoroughly, with the aid of the other members of the committee.
